RECORDS AND
REPORTING

Dear Director,

001234-WS

I am totally opposed to the application of United Water Florida, Inc. for extension of their service area in Nassau County, Florida, because:

1. There is no demand for this service.
2. This service will accommodate the developer more than any one at costs to others who do not want it. It, also, now or in the future cause financial hardships for many families in the community.
3. No information has been given to the public or the residents in the area. We do not know to what extent we'll be affected, except a lot of cash.
