Dear Sir or Madam:

This letter is in response to the plan to force some of the residents of Yulee Florida to accept municipal water and sewer service. We object to this action, and are taking this opportunity to explain the reasons that we object. First of all we already have a well in place, and a water softener that meets our needs adequately. We also have in place a septic tank that once again is quite adequate for our needs. Thus we don't see the need to increase our monthly expenditures by adding unnecessary additional monthly expenditures. Incurring the massive expense of installing these utilities would also be inconvenient at best. We simply don't understand the need to unnecessarily add additional expenses to ourselves or the other residents in this area.

Sincerely,

Becky A. Liddell

Eric S. Stone
