Dear Florida Public Service Commission,

We are homeowners on Chester Road. We understand water/sewer lines are to be installed in our area and we may be required to tie into them at a cost to us which could be more than we actually owe on the balance of our mortgage. Our home already has a well for water and a septic tank. We have already paid for both of these. In seven years our mortgage will be paid in full. We see no acceptable reason why we should have to go into debit again at this time for something we don't need. We have no problem with the new homes being built in this area as long as we aren't expected to foot the bill for improvements we have not asked for. As residents of this community for 23 years we hope a reasonable solution to this problem will be found.

Sincerely,

Bill + Toni Evatt
