To Whom it may concern,

I know this letter will fall on deaf ears.

But, the fact is, we very strongly object, to water and sewer lines to our property.

We do not have and can not borrow the thousands of dollars, required, to have water and sewer lines to our property.

We are on Social Security and already paying numerous doctor and hospital bills and prescriptions, each and every month, along with everyday living expenses. We do not need one can we afford another bill, every month.

With a well, with perfectly good water and a working sewer system, we do not need this added expense, for a system we do not need, for a system, we do not need.

Our Property Taxes have doubled in the last five years. How much, will this add to our property taxes. Another bill to be considered.

Thank you,

C. Paetock
