PGA factor for application to bills rendered for gas sold by Peoples during the twelve-month period of January 1, 2001 through December 31, 2001 (the "Projection Period").

4. The maximum PGA factor calculated in Composite Exhibit EE-2 basically represents (A) the sum of the final net true-up amount for the period January 1, 1999 through December 31, 1999, the estimated or projected true-up (based on actual data for eight months and projected data for four months) for the period January 1, 2000 through December 31, 2000, both true-up amounts including interest, and Peoples' projected cost of purchased gas for the January 2001 - December 2001 period, without interest, (B) divided by Peoples' projected therm sales for the Projection Period.

5. By its order No. PSC-99-0634-FOF-GU in Docket No. 981698-GU the Commission approved a methodology for charging separate Purchased Gas Adjustment Factors for different customer classes. The maximum (cap) PGA factor for which Peoples seeks approval for the Projection Period is the Residential factor shown on Line 45, Page 2 of Schedule E-1 of Composite Exhibit EE-2, and is 71.171 cents per therm.

WHEREFORE, Peoples Gas System, respectfully requests that the Commission enter its order approving Peoples' proposed maximum (cap) PGA factor of 71.171 cents per therm for application to bills rendered for meter readings taken from January 1, 2001 through December 31, 2001.

Respectfully submitted,
