Docket No. 000933-TC

REPORT

DATE

000933

Attn. Ms. Blanca Bayo:

D 8 7 3

OCT 12 2000

On or about September 1 2000 I received a registered letter from Public Service Commission informing me that TEL CALL COMMUNICATION INC. was in violation for not paying Regulatory Assessment Fees.

I called the Florida Public Service Commission that same day to get a better understanding of this letter, and what I needed to do to resolve this violation. I told the representative I did not received any forms or request for Regulatory fees, I then requested the necessary forms and information so that could file and pay the amount due. I received the form and the information that same day by Fax.

I had believed that when the form was filed and the \$66.50 was paid everything was ok and there was nothing more needed. Not until I received a second registered letter from Public Service Commission dated September 25 2000 I then came to the understanding that there was sill \$ 19.95 Owed and that TEL CALL COMMUNICATION INC. must file a petition in order to keep certificate # 3715 active. I now understand that the Regulatory Assessment Form is mail out in December and the filing must be done before January 30. A check for 19.95 will be sent with this petition.

I have taken steps to prevent this from happening again by program (2) two reminders in December and January.

I would like to make a settlement offer of \$100 and I promise this will not happen again.
