Dear Mr. Waters:

On April 1, 1998, Florida Power and Light Company (FPL) filed its Ten Year Site Plan (TYSP) with the Commission. This document describes FPL's generation and-transmission needs for the next ten years. According to the TYSP, FPL's next planned generating addition is the repowering project at the existing Ft. Myers site. This repowering is currently scheduled for an in-service date sometime during January, 2002.

Staff has had several meetings with FPL to discuss, among other things, the requirement for FPL to file a Standard Offer contract tied to the Ft. Myers repowering project. To date, no petition for approval of a Standard Offer or request for waiver of Rule 25-17.0832(4) has been filed with the Commission.

Workshops to discuss the TYSP filings are currently scheduled for August 25 and September 11, 1998. In order to prepare for these workshops, could you please indicate when FPL will be filing a petition seeking approval of a Standard Offer or request for waiver of Rule 25-17.0832(4) by July 31, 1998. Thank you.

If you have any questions or need additional information, please contact me at (850) 413-6680.

Sincerely,

Tom Ballinger

Dear Mr. Childs:

At the September 11, 1998 staff workshop, your utility indicated that it would be filing a Standard Offer contract for Commission approval in the near future. To date, no such petition has been filed with the Commission. In order to compliment the Staff's review of the individual utility Ten-Year Site Plans, I am requesting that each investor-owned utility provide an estimated date of filing and the avoided unit(s) the contract would be based upon. This information should be provided no later than October 15, 1998.

Thank you for your consideration in this matter. If you have any questions, please contact me at (850)413-6680.

Sincerely,

Dear Mr. Ballinger:

This is in response to your letter to me dated October 1, 1998 in which you posed several questions concerning the filing of a Standard Offer Contract for Commission approval. FPL estimates that it will be filing a petition for approval of a standard offer contract by December 30, 1998. We intend to have the Standard Offer Contract based upon a combustion turbine with an in service date of 2002.

If you have any additional questions please feel free to contact me.

Dear Mr. Ballinger:

This letter serves as an informational update to Mr. Matthew Childs' October 15, 1998, correspondence indicating that FPL intends to file a Standard Offer Contract based upon a combustion turbine with an in service date of 2002.

FPL is currently in the process of finalizing the Standard Offer Contract and Tariff and estimates completion of the contract to meet a filing date of January 22, 1999. The Standard Offer Contract will be based upon a 5 MW portion of a 209 MW simple cycle combustion turbine with an expected heat rate of 10,010 Btu/kWh, fueled by natural gas with an in service date of January 1, 2002. The expected availability is estimated to be 98% with capacity payments based upon a "Pay for Performance" sliding scale mechanism that correlates capacity payments with unit performance and availability.

If you have any questions or concerns about this matter, please feel free to contact me at (305) 552-3643.

Sincerely,
