I am writing to support the position of People's Gas and taking a cautious approach to the expansion of services. Representing an area of new service from People's Gas, I believe that quality service is paramount. Customer pooling and incentives to gas marketers to develop new business makes good business sense and allows People's Gas the ability to prepare for the eventuality of serving all customers.

Thank you for your consideration of the experimental program through May 31, 2001.
