I am writing in protest of the proposed rate increase while I see that the sewerage Co. is operating in the red & need to increase its rate, the amount is grossly out of line. The deficit did not happen overnight and a minor increase over several years would have taken care of the problem. Now with the proposed increase our sewerage bill will almost double. We were hit with an increase on our water bill in the last year & now this. The retired residents on fixed incomes will be hurt monetarily by this. I suggest that you look again at the amount of increase that is asked for and bring it more in line of breaking even or making a very minor profit with a possible increase in a few years to give the company a better operating money basis.

Thank You

It is very nice to receive your June 1999 Special Report. However, it was taped to the front door of our home on Sunday, August 8, 1999 - a little late to enable us to attend the local meeting.

According to the Special Report, an 89.77% increase is requested in order to 'recover expenses' and earn 9.98% returns on investment. If, in fact, the management went over budget last year, it seems prudent to look at current business practices rather than others having to 'bail them out' because of over-spending. If additional fees were needed, approval should have been made before the fact, not after.

Additionally, it would be very nice, indeed, to receive a 9.98% return on our investments and asking someone else to provide the funds to do so.

We are not opposed to nominal increases from time to time - but 89.77% all at once - NEVER. Shame on them.
