Re: Docket No. 000575-TX

Dear Mr. Hammond:

This will acknowledge receipt of an application for certificate to provide alternative local exchange telecommunications service by Broadband Digital Technologies, Inc., which was filed in this office on May 11, 2000, and assigned the above-referenced docket number. Appropriate staff members will be advised.

Mediation may be available to resolve any dispute in this docket. If mediation is conducted, it does not affect a substantially interested person's right to an administrative hearing. For more information, contact the Office of General Counsel at (850) 413-6248 or FAX (850) 413-7180.

Please make notes as well that Commission Rule 25-22.005(7), F.A.C., requires certificated companies to notify the Commission of any changes in name, telephone, address, or contact person. Should your application be granted by the Commission, you will be expected to comply with this rule by advising us of any changes as they occur.

Dear Sir or Madam:

Broadtier Communications, Inc., a Delaware corporation, is a development stage enterprise that will operate nationally in the United States as an integrated communications provider, delivering local telephone, e-commerce and high-speed DSL/ATM-based Internet access services. The Company will deploy a communications network that enables it to deliver both traditional and emerging communication services as well as rich, multimedia content to consumers in under-served second- and third-tier markets. The Company intends to offer bundled services on a single bill as well as unbundled wireline and wireless products in seven regions covering 42 states and 117 markets.

Broadtier's corporate and network operating center (NOC) facilities will be located within Florida. As part of our efforts to deliver communication services to local communities within these under-served markets we respectfully submit this Alternative Local Exchange Service provider application for your consideration.

Due to our network deployment schedule, the Company will not deliver services for the first three quarters of operations. The Company's Florida ALEC certification will be used to negotiate interconnection and co-location agreements with incumbent service providers and to prepare for service activation. For this reason a "local voice" price list is not included with this application. Broadtier Communications does not intend to offer local voice services for a minimum of the first three quarters after certification and understands that all "price list" documentation must be submitted prior to any local voice offerings can commence.

Broadtier does not own any voice switching or transmission facilities at this time. Prior to offering local voice services, Broadtier will make available to the PSC information concerning all POP, switch and transmission facilities if necessary.

Included within the application package are resumes of Broadtier's senior operations, sales and engineering personnel. The Company is actively recruiting additional personnel to augment both its senior and technical management teams at this time.

Due to Broadtier's relatively short operating period, audited financial statements are unavailable; however, financial statements outlining projected Balance, Income, and Cash Flow statements are included for your review. Broadtier is in the process of raising sufficient financial support to provide local voice services as well as to meet all lease or ownership obligations and will provide to the PSC information concerning its financial standing upon completion of its financing stage if necessary.

In the event you have any questions regarding this application, please feel free to contact my representative or myself directly. Thank you for your consideration.

Sincerely,

Jeffrey D. Hammond
President
