Re: Power Company Associate Transactions

Dear Ms. Helton,

This letter is not intended to be filed. But on behalf of IEC Fla. (Independent Electrical Contractors), this letter will serve as additional comments to those already made by other segments in the construction industry.

Here are several True Stories of Tampa Electric Co. (TECO) intrusion into private businesses offering services at below market prices. Sometimes these services are free. This would be acceptable if the tools, equipment, and man power were not being paid for by rate payers Electric Bills.

Mulberry Phosphates December 5 1997

A job to install a 2500 KVA transformer in their substation cost me \$ 4,780.00. I sold it for \$6500.00, and my proposal was not accepted. Below are my costs and the estimated cost for TECO.

| My Cost | | TECO | |
|----------------|------|---------------------|------|
| 1-Bucket truck | 250 | 3 Bucket trucks | 750 |
| 1 crane | 500 | 1 Crane much larger | 600 |
| 1 snorkle lift | 350 | 2 Utility trucks | 400 |
| 8 Men | 1680 | 12 Men | 3600 |
| Material | 2000 | Material | 2000 |
| COS | 4780 | 2 other trucks | 100 |
| Sale | 6500 | COS | 7450 |

There cost were over my sale price. My labor cost plus labor burden for TECO is low at \$30/hr. I am sure it cost them much more.

Albertsons Distribution Plant City Fl

We just purchased the newest Infra Red Camera to detect "hotspots" in Electrical Systems. Cost \$74,000.00

I called a good friend Chuck Hartman (813)757-2591, the Maintenance Manager, to offer the service. He said TECO just did it for "free". It was a public Service! My sale Price for that project would have been \$5000.00

Parking Lot Lighting

The most complaints come from Parking lot lighting, in Malls, Car Dealers, etc. The Power companies are now offering leasing packages for these projects paid for by rate payers profits.

If competition were fair, I would have no problem competing against any Utility Company, on any job. But when they are financed, and have equipment and man power provided by another part of their company, it is devastating to my company. There are many other stories myself and others can tell, and we are most anxious to meet with anyone very soon.

IEC Fla. respectfully requests that the Public service Commission consider adopting separate and specific rules governing the use of rate payer funds and assets used by utility companies for non regulated work.

Sincerely

RECORDS AND REPORTING

Please place the attached letter from IEC Florida on the correspondence side of the docket.

Florida Power & Light Company
Response to January 31, 2000 Data/Information Request
Docket No. 980643-EI

1. Please identify and estimate costs to comply with each of the proposed rules, including all potential transactional costs. For purposes of this question, "transactional costs" should include direct costs that are readily ascertainable based upon standard business practices. These costs may include filing fees, costs of obtaining a license, the costs of equipment required to be installed or used or procedures required to be employed in complying with the rule, additional operating costs incurred, and the costs of monitoring and reporting.
 - A. The pricing policy included in the cost allocation and affiliate transaction rule should allow for the transfer of assets between the utility and an affiliate at cost. The draft rule as written requires that the utility transfer assets to an affiliate at the higher of cost or market but when assets are transferred from an affiliate the requirement is at the lower of cost or market. This disparity could discourage certain transfers of assets between a utility and an affiliate resulting in a detriment to the ratepayers. If the Commission determines that a rule is necessary it should at a minimum allow for symmetry.

Since the rule applies to future transactions, Florida Power & Light Company (FPL) cannot estimate the total costs that could result from this rule.

2. Please identify and estimate additional benefits from the proposed rule.
 - A. FPL is not aware of any benefit that would result from implementing the cost allocation and affiliate transaction rule. FPL continues to believe that the proposed rule is unnecessary and that there is no compelling need for it.
3. Please provide any reasonable alternative methods of accomplishing the requirements of each of the proposed rules. Include the estimated costs of each alternative. If a modification of the proposed rule is suggested, please also include any related expenses/savings.
 - A. If the Commission believes that a rule is necessary, FPL has previously provided the information that is attached to this response as alternative language to the cost allocation and affiliate transaction rule. (FPL's comments previously filed with Staff will be attached) This alternative language would help to minimize any detrimental impact to the ratepayers.
4. Please provide additional comments or cost estimates that may be useful to the Commission or its staff in assessing the economic impacts of the proposed rule. Please include any company-recommended modifications and related expense/savings.
 - A. See response to question 3 above.
