Re: Parkland Utilities, Inc. 001825-WS
 Application for Amendment of Service Territory in Broward and Palm Beach Counties
Our File No. 21206.07 WS189

Dear Ms. Bayo:

Attached in accordance with the requirements of Commission Rule 25-30.036 and Section 367.045, Florida Statutes, is a completed form application for amendment of service territory of Parkland Utilities, Inc.

This Application for Extension of Service Territory is being undertaken with the agreement with all the property owners affected therein, all of whom have been formally noticed of this application on this same date. All of the areas proposed for inclusion in the Utility's service territory are immediately adjacent to the existing territory (see Exhibit "D" to the application), and service is available through existing facilities located in or immediately adjacent to the proposed new areas (see Exhibit "E" to the application).

As discussed with Richard Redemann of the PSC staff, the Utility enlisted the services of a surveyor in order to provide with a description of the territory as amended, rather than simply a legal

Re: Parkland Utilities, Inc.
Application for Amendment of Service Territory in Broward and Palm Beach Counties
Our File No. 21206.07

001825-WS
WS189

Dear Ms. Bayo:

Attached in accordance with the requirements of Commission Rule 25-30.036 and Section 367.045, Florida Statutes, is a completed form application for amendment of service territory of Parkland Utilities, Inc.

This Application for Extension of Service Territory is being undertaken with the agreement with all the property owners affected therein, all of whom have been formally noticed of this application on this same date. All of the areas proposed for inclusion in the Utility's service territory are immediately adjacent to the existing territory (see Exhibit "D" to the application), and service is available through existing facilities located in or immediately adjacent to the proposed new areas (see Exhibit "E" to the application).

As discussed with Richard Redemann of the PSC staff, the Utility enlisted the services of a surveyor in order to provide with a description of the territory as amended, rather than simply a legal description of the new properties by metes and bounds or referenced quarter sections. As such, the notice provided includes the entire legal description of the existing and new areas combined for simplicity's sake. We have utilized that description in our noticing, and have modified our standard notice accordingly. Mr. Redemann agreed with this proposal for noticing.

There are areas within this proposed territory that are in need of water to individual residents as quickly as possible and, as such, we are requesting that the Commission move expeditiously to approve this certificate extension.

I have enclosed filing fees of \$200 each for the water and sewer systems for a total of \$400, which represents the filing fee required pursuant to Commission Rule 25-30.020, Florida Administrative Code.
