RE: Docket No 001495-TX Miracle Communications  
Amendment for Waiver

01 JAN -3 11:11:02  
FBI - FT WORTH

This is an amendment to the original response to the commission in regards to the settlement proposal. Miracle is submitting a waiver of objection to the administrative cancellation of certificate, In the event Miracles offer is accepted for proper notification of address change and timely payment of the RAF and settlement fine of \$200.00 for the violations, if Miracle fails to comply with the terms which Miracle has offered. All other elements of Miracles previous settlement offer are reaffirmed. This waiver of objection agreement is only in regards to Docket 001495-TX for the proposed settlement offers that Miracle has produced, not for any other possible dockets in the future against Miracle Communications.

Miracle Only agrees to this waiver if the proposed offer is not upheld by miracle Comm for Docket 001495-Tx.

RE:

Docket No. 001495-TX  
Miracle Communications

My recommendation to accept your settlement proposal of November 20 for the above docket is scheduled to be filed January 4 and heard by the Commissioners on January 16. The Commission's Legal Division has just advised me that your settlement offer must be amended to include the following element:

A waiver of objection to the administrative cancellation of your certificate in the event your offer is accepted and you fail to comply with the terms which you have offered. All other elements of your previous settlement offer are reaffirmed.

I apologize for any inconvenience this may cause. However, I was told that the waiver of objection must be in all settlement offers where a Proposed Agency Action Order has not previously been issued in a docket.
