*There was a mistake with the filing of the 01/19/01 memo. We have to go back to Agenda because a vote had been taken, thus we no longer have the administrative authority to close the docket. Please reopen the docket for issuance of official order. You will receive a memo retracting the 01/19/01 memo. Thanks for checking.*

I received a memo on 1/19/01 to close the captioned docket based on Bell's withdrawal of its agreement with Telscape. However, it has been brought to my attention that a recommendation is on the 2/5/01 agenda to acknowledge the withdrawal and close the docket. Do you plan to withdraw the recommendation from the 2/5 agenda since we have administrative authority to close dockets where the petition has been withdrawn or let it remain? If you decide to leave it on the agenda, I'll have to reopen the docket and wait for issuance of an official order before closing. If you decide to withdraw the recommendation, please see the SOP for doing so.
