HI Paula. I apologize for taking so long. They are all ok. I have not yet received payment for 2000, but its still too early to say they are late with their filing.

Good morning, Jackie. I'm just following up since I haven't received a response yet. Thanks for your help.

Jackie, please let me know if these three companies owe any RAFs, including the 2000 fees. According to the new RAF System, it appears that only TS177 does not have any kind of balance. The System shows that TX041 and TI531 do have balances, but again, that could be because they show multiple payments. Thanks.

We received a letter from aty Karen Camechis requesting we cancel ALEC Cert 4724, IXC Cert 4723, and STS Cert 4725.

Is it okay to open a docket to cancel these 3 certs?

Kay

P.S. Please respond to Matilda and Linda. Thanks.
