RE: Request for Emergency Items to be Added to the February 20, 2001 Agenda

Florida Power Corporation (FPC) and Tampa Electric Company (TECO) have filed separate petitions for mid-course adjustments to their fuel factors. FPC filed their petition yesterday and TECO filed their petition today. These petitions have been filed in Docket No. 010001-EI (Fuel and Purchased Power Cost Recovery Clause and Generating Performance Incentive Factor).

Both utilities have requested that consideration of the petitions be placed on the February 20, 2001 Agenda Conference. Since the February 20, 2001 Agenda Schedule has already been finalized, we request consideration of these petitions be added as ~~emergency items~~ *an addendum* to the published agenda.

Staff is beginning its review of these petitions but will need time to prepare its recommendations. If the request for the addition of these ~~emergency~~ items is granted, Staff will file its recommendations by 4 PM on Wednesday, February 14, 2001. Thank you.

addendum*

2/9/01

*Metinsla,
I believe it would be
beneficial if all 3 mid-course
corrections could be on the same
agenda item. on press release,
one time msg in complaint, all
customers would be informed that prices
are going up & they could begin to
conserve.*

** emergency item is
added at last minute
with no notice

addendum items are
added and revised
gender published & distributed
so people get word notice.*
