An SAIC Company

January 26, 2001

Mr. Bob Casey
Division of Competitive Services
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Dear Mr. Casey:

Per your request, attached is a list showing the Tampa Rate Center data entered by the various carriers as it is represented in the Telcordia™ Routing Administration (TRA) Routing DataBase System (RDBS) and Business Rating Information Database System (BRIDS) and as reflected in the Telcordia LERG™ routing guide and Telcordia TPM™ data source. It reflects the data as both the single Tampa Rate Center as well as the recently revised reflection of Tampa into five separate Rate Centers (North, East, South, West, and Central).

We hope this information is useful to you. If you have any question regarding this data, please contact Mary Ann Southard, our database administrator on 732-699-6633.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tom Mazzone', written over a faint, illegible typed name.

Thomas W. Mazzone

An SAIC Company

January 26, 2001

Mr. Walter D'Haeseleer
Director
Division of Competitive Services
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Dear Mr. D'Haeseleer:

This letter is to notify you that Telcordia™ Routing Administration (TRA) has retained the original reflection of a single Tampa Rate Center as well as the recently revised reflection of Tampa into five separate Rate Centers (North, East, South, West, and Central) in its Routing DataBase System (RDBS) and Business Rating Information Database System (BRIDS). Please be aware that Telcordia was not apprised by anyone, until January 19, 2001 of your commission's request to place industry plans to reflect Tampa as the five Rate Centers on hold. TRA's update to the Rate Center data was based on the direction and resolution of an industry committee that has been reviewing the situation for approximately one year. Please note that TRA does not make such data changes arbitrarily. All changes and associated effective dates follow an open industry process requiring appropriate documentation such as tariffs.

Continuing in this vein, we wish to work with your office and the other industry stakeholders as efforts ensue to resolve this, or any other similar issues.

TRA is the recognized industry source for overall notification to carriers of certain data associated with the routing and rating of calls within the North American Numbering Plan. The RDBS and BRIDS databases are the source databases for the LERG™ and TPM™ that are the primary vehicles for this notification process.

Currently, the RDBS and BRIDS databases will allow data entries by carriers for either version of the Tampa Rate Center configuration, that is, the original single large Rate Center (which we understand does not match the filed tariff) and the five smaller Tampa Rate Centers (which we understand matches the filed tariff, but is currently at issue.) Some carriers have data under one configuration, others under the other. This

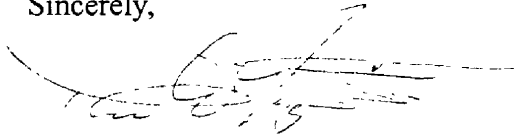

Telcordia, LERG and TPM are trademarks of Telcordia Technologies, Inc.

inconsistency will no doubt cause some confusion and expense to carriers, however, TRA will continue to allow both of these representations to co-exist while we wait for the commission's decision. We understand this dual representation to be consistent with your desires.

Please contact us to determine how we can work together to resolve this issue as soon as possible.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Mazzone", written over a horizontal dashed line.

Re: Verizon's Updates to the RDBS and BRIDS concerning the Tampa Rate Center

Dear Mr. Mazzone:

This is to follow up our phone conversation and confirm that Telcordia Technologies will make no further changes concerning the Tampa rate center as of January 25, 2001. You also stated that carriers requesting codes will have the temporary option (pending a Florida Public Service Commission (FPSC) Commission final decision on the Tampa rate center) to designate "Tampa" as one rate center, or to designate one of the five proposed rate centers developed by Verizon.

Please be advised that FPSC staff has filed an emergency recommendation concerning the Tampa rate center which will be considered by Commissioners at the February 6, 2001 agenda conference (Item 27-A). FPSC staff are recommending that the Commission should require Tampa area codeholders to designate "Tampa" rather than one of the five rate centers developed by Verizon. However, if prior to August 15, 2000, a codeholder had requested the NXX code be assigned to one of the five Verizon developed rate centers, it can continue to do so with its new NXX codes if desired. This process should continue until a hearing (tentatively scheduled for March 27, 2001) has been held to thoroughly address the issue and a final order is issued.

I will keep you advised as this dock progresses. NANPA has also been informed that carriers will have the options listed above when being assigned an NXX code. If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert J. Casey".
