Re: Aloha Utilities, Inc.; PSC Docket No. 010168-WU  
Limited Proceeding Application for Increased Water Rates in Seven Springs System in Pasco County, Florida  
Our File No. 26038.34

Dear Ms. Bayo:

Attached, for your information, as a supplement to the Application for Limited Proceeding Emergency, Temporary, and Permanent Increase in Water Rates filed on February 5, 2001, are copies of the first two bills that we have received from Pasco County for bulk purchased water. The Utility has begun the active program of reducing pumpage from its wells and increasing purchases, in order to bring the annual average pumpage back in line with the Water Use Permit issued by the Southwest Florida Water Management District and its further threat of fines if the Utility did not do so. These are the bills for December - January and January - February purchases and support an increase in purchased water even greater than that estimated in the original application.

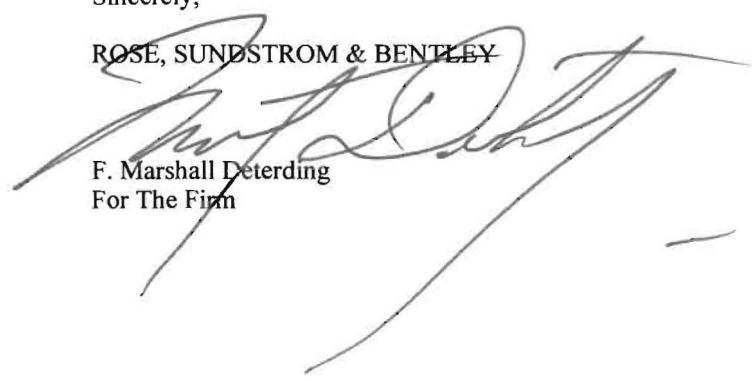

As we receive more bills, and as the case moves forward, we will work with the staff to ensure that the latest information concerning the level of existing and expected future purchases are utilized in calculating the exact amount of the increase rate needed to cover these new costs.

Once again, we request that the staff and the Commission move quickly to grant some sort of temporary and/or emergency relief to the Utility as quickly as possible.

If you have any questions in this regard, please let me know.

Sincerely,

ROSE, SUNDBSTROM & BENTLEY
