RE: DOCKET NO. 001138-WS - Application for amendment of Certificate Nos. 277-W and 223-S to add territory in Seminole County by CWS Communities LP d/b/a Palm Valley.

ISSUE 1: Should Order No. PSC-00-2243-PAA-WS be modified to approve a new class of service for general service reclaimed water?

RECOMMENDATION: Yes. Order No. PSC-00-2243-PAA-WS should be modified to reflect a general service rate of \$0 for reclaimed water service, rather than a residential service rate of \$0 for reclaimed water service. Staff should be given the authority to administratively approve the tariff provided it is consistent with the Commission's decision. Staff recommends that the tariff should be effective for services rendered on or after the stamped approval date of the tariff. The utility should be required to return to the Commission for a determination regarding the rates for reclaimed water service prior to providing reclaimed water service to any other customers. Order No. PSC-00-2243-PAA-WS should be affirmed in all other respects.
