MANAGEMENT PROFILES

Thomas J. Tharrington

Tom began work at First Brands Corporation. While at First Brands, Tom was moved to Boston, Massachusetts where he was made responsible for sales and marketing in a seven state region. Within a year, he was promoted to management and was transferred to Kansas City Missouri where he implemented a progressive corporate sales strategy. His seventeen-month stay led to the development of a program, which was directly responsible for a two-fold increase in sales.

In 1992, First Brands moved Tom to Miami Florida to head the Southeast sales and marketing effort. His work took him all over the country, but his focus remained on consumer behavior in the Southeast; specifically Florida. Beyond marketing and sales expertise, Tom began to pursue more diligently his philanthropic work with charities and was able to involve First Brands in a number of national events, bringing them further to the forefront of their industry.

Tom left First Brands in October of 1997 to work with FPG in the newly deregulated power industry. He was relocated to San Diego California. Tom was tasked with the creation and implementation of the California offices specifically recruiting, hiring, and training the sales force. Tom's early involvement with the state and with the regulators made him an authority on California's deregulated marketplace, giving FPG an asset that few companies could offer.

Tom Joined TT Communications Corp in February 2001. Tom will play a major role in TT's expansion throughout Florida, and will continue to be an asset to both TT Communications and its customers.

Tom received a Bachelor of Science in Business Administration from The University of Oklahoma.

PRICE LIST FORMAT SHEETS

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the price list. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc, the FPSC follows in their price list approval process, the most current sheet number on file with the Commission is not always the price list page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level as follows:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).

D. Check Sheets - When a price list filing is made with the FPSC, an updated check sheet accompanies the price list filing. The check sheet lists the sheets contained in the price list, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The price list user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

SECTION 3 - BASIC SERVICE DESCRIPTIONS AND RATES

3.1 Timing of Calls

3.1.1 When Billing Charges Begin and End For Phone Calls

The customer's usage charge is based on the actual usage of the Company's network. Usage begins when the called party picks up the receiver, (i.e. when 2 way communication, often referred to as "conversation time" is possible.). When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling or called party hangs up.

3.1.2 Billing Increments

The billing increments for each service is set forth in the individual product rate section.

3.1.3 Per Call Billing Charges

Billing will be rounded up to the nearest penny for each call.

3.1.4 Uncompleted Calls

There shall be no charges for uncompleted calls.

If the call continues into a different rate period, the appropriate rates from that period apply to any additional minutes occurring in that rate period. If an additional minute is split between two rate periods, the rate period applicable at the start of the minute applies to the entire minute.

3.3 Payment of Calls

Interest charges of 1.5% per month will be assessed on all unpaid balances more than thirty days old.

3.3.2 Return Check Charges

3.4 Restoration of Service
