Re: Notice of Termination of Service

The purpose of this letter is to follow up my correspondence, dated July 29, 2001, by which Williams Communications, LLC ("Williams"), notified you that it planned to suspend the provision of certain wholesale toll services to a reseller customer, Startec Global Operating Company ("Startec"). More specifically, Startec has advised Williams that it has made any necessary arrangements to continue uninterrupted service to its customers in the event of any such suspension by Williams.

Please do not hesitate to contact me should you have any questions about this update or this matter in general.

Kindest Regards,

Chantel Mosby
