Re: **Docket No. 010983-TL**
**Petition for Expedited Review of Growth Code Denials by the North
American Numbering Administration (Miami Exchange)**

Dear Ms. Bayó:

Enclosed is an original and fifteen copies of BellSouth Telecommunications, Inc.'s Petition for Expedited Review of NXX Code Denials for the (Miami Exchange), which we ask that you file in the captioned docket.

A copy of this letter is enclosed. Please mark it to indicate that the original was filed and return the copy to me. Copies have been served to the parties shown on the attached Certificate of Service.

Sincerely,

James Meza III (KA)

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Expedited Review of Growth) Docket No. _____
Code Denials by the North American Numbering)
Administration)
_____) Filed: July 18, 2001

PETITION FOR EXPEDITED REVIEW OF NXX CODE DENIALS

NOW COMES BellSouth Telecommunications, Inc. ("BellSouth"), pursuant to 47 C.F.R. § 52.15(g)(iv) and Federal Communications Commission ("FCC") Order FCC 00-104, petitions the Florida Public Service Commission ("FPSC") to review the North American Plan Administrator ("NANPA") denials of BellSouth's applications for use of additional numbering resources in the Miami exchange. In support of this petition, BellSouth states:

PARTIES

1. BellSouth is a corporation organized and formed under the laws of the State of Georgia and an incumbent local exchange company ("ILEC") regulated by the Commission and authorized to provide local exchange telecommunications and intraLATA toll telecommunications in the State of Florida.

2. NANPA is an independent non-governmental entity who is responsible for administering and managing the North American Numbering Plan ("NANP"). See 47 C.F.R. § 52.13(a),(b).

JURISDICTION

3. The Commission has jurisdiction of this matter pursuant to 47 C.F.R. § 52.15(g)(iv). This provision provides that a carrier may challenge the NANPA's decision to deny numbering resources to the appropriate state regulatory commission.

BACKGROUND AND REQUEST FOR RELIEF

4. On March 31, 2000, the FCC issued Order No. 00-104 (“FCC 00-104” or the “Order”) in the Numbering Resource Optimization docket (Docket No. 99-200). The goal of FCC 00-104 was to implement uniform standards governing requests for telephone numbering resources in order to increase efficiency in the use of telephone numbers and to avoid further exhaustion of telephone numbers under the NANP.

5. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier’s need for numbering resources by requiring rate center based utilization rates to be reported to NANPA. FCC Order at § 105. The FCC further required that to qualify for new numbering resources, applicants must establish that its existing numbering inventory within the applicant’s rate center will be exhausted within six months of the application. Prior to the ruling, the Central Office Code Assignment Guidelines, used by the industry and NANPA to make code assignments, required the applicant’s existing number inventory within the applicant’s serving switch to exhaust within a specific months-to-exhaust (“MTE”) of the code application in order for a code to be assigned or for the carrier to prove that it was unable to meet a specific customer’s request with its current inventory of numbers. The FCC stated its reason for the shift to a “rate center” basis for determining the need for new numbering resources was intended to “more accurately reflect how numbering resources are assigned” and to allow “carriers to obtain numbering resources in response to specific customer demands.” FCC Order at ¶ 105.

6. As a result of FCC 00-104, the FCC adopted 47 C.F.R. § 52.15 (g)(iii) and (iv) which provide:

All service providers shall maintain no more than a six-month inventory of telephone numbers in each rate center or service area in which it provides telecommunications service.

The NANPA shall withhold numbering resources from any U.S. carrier that fails to comply with the reporting and numbering resources application requirements established in this part. The NANPA shall not issue numbering resources to a carrier without an Operating Company Number (OCN). The NANPA must notify the carrier in writing of its decision to withhold numbering resources within ten (10) days of receiving a request for numbering resources. The carrier may challenge the NANPA's decision to the appropriate state regulatory commission. The state regulatory commission may affirm or overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein.

7. Since the beginning of the year, BellSouth has submitted several applications for additional numbering resources to NANPA and NeuStar, the pooling administrator, for assignment of additional numbering resources to meet the demands of its customers in several Florida exchanges, including Hollywood, Ft. Lauderdale, Orange Park, Orlando and Miami.

8. BellSouth has completed these applications in accordance with Industry Numbering Committee's (INC's) guidelines and filled out the necessary Months-to-Exhaust Certification Worksheets as required.

9. BellSouth has utilized mechanisms such as number pooling to manage its numbering resources in the most efficient manner. However, as the Commission is well aware, in some circumstances BellSouth has been required to petition the Commission for

relief. As for this request for additional numbering resources for the Miami exchange, BellSouth states the following:

10. The Miami exchange consists of twenty-four (24) central offices and twenty-eight (28) switching entities that utilize numbering resources: Airport (MIAMFLAGRS0), Alhambra (MIAMFLAEDS0 and MIAMFLAERS0), Allapattah (MIAMFLAL63E), Bayshore (MIAMFLBA85E), Miami Beach (MIAMFLBRDS0), Biscayne (MIAMFLBCDS0), Canal (MIAMFLCADS0), Dadeland Blvd (MIAMFLDBRS1), Flagler (MIAMFLFLDS0), Grande (MIAMFLGRDS0 and MIAMFLGRDS1), Hialeah (MIAMFLHLDS0), Indian Creek (MIAMFLICDS0), Key Biscayne (MIAMFLKEDS0), Metro (MIAMFLMERS0 and MIAMFLME32E), Miami Shores (MIAMFLSH75E), North Miami (MIAMFLNMDS0), Northside (MIAMFLNSDS0), Opa Locka (MIAMFLOL68E), Palmetto (MIAMFLPLDS0 and MIAMFLPLRS0), Poinciana (MIAMFLPB88E), Red Road (MIAMFLRRDS0), Silver Oaks (MIAMFLSODS0), West Dade (MIAMFLWDDS0), and West Miami (MIAMFLWMDS0).

11. On July 9, 2001, BellSouth made four (4) requests for numbering resources for the Grande, Hialeah, Canal, and Bayshore switches to allow BellSouth to meet the numbering demands of its customers in these switches. *See* Attachment 1. Specifically, the requests for the Grande (MIAMFLGRDS1) and Hialeah (MIAMFLHLDS0) switches were made to meet a customer requests for Direct-Inward-Dialing (DID) service, which would include a full NXX for Grande and a 1,000

consecutive numbers for Hialeah.¹ The other code requests, Canal (MIAMFLCADS0) and Bayshore (MIAMFLBA85E) switches, were for general growth numbering resources needed to retain a six (6) month inventory of telephone numbers.

12. At the time of the code request, the Miami exchange had a MTE of 10.6-10.9, while the MTE for the Grande (MIAMFLGRDS1) switch was 53.70, the MTE for the Hialeah (MIAMFLHLDS0) switch was 1.64, the MTE for the Canal (MIAMFLCADS0) switch was 5.31, and the MTE for the Bayshore (MIAMFLBA85E) switch was 2.42.

13. On July 11, 2001, NANPA denied BellSouth's four (4) code requests for the Miami exchange. *See* Attachment 2. The basis for NANPA's denial was that BellSouth had not met the rate center based MTE criteria now set forth in the Central Office Code Guidelines Section 4.2.1, notwithstanding the fact that BellSouth does not have the numbering resources needed to satisfy customer demand in these switches and that the MTE for Canal and Bayshore switches was below six MTE per switch.

14. BellSouth's requested numbering resources would not materially impact exhaustion of available numbers in the 786 area code.

15. As discussed above, both the FCC Order and NANPA's Central Office Code Guidelines provide that state regulatory authorities have the power and authority to review NANPA's decision to deny a request for numbering resources. *See* 47 C.F.R. § 52.15(g)(3)(iv); § 13.0 of the NANPA Central Office Code (NXX) Guidelines.

¹ In addition to the customer's request for additional consecutive DID numbers, the customer wants to consolidate its current numbers that are spread between three NXXs into a single NXX in the same NPA. This will allow the customer to continue abbreviated dialing between its numbers. The customer's current numbers will go back into the inventory for the Hialeah switch.

16. Under earlier MTE procedures used by NANPA, waivers or exceptions were granted when customer hardships could be demonstrated or when the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NANPA looks at the number of MTE for the entire rate center without any exceptions. The current process is arbitrary and results in (1) decisions contrary to the public interest and welfare of consumers in the State of Florida; and (2) decisions that do not necessarily promote the efficient use of telephone numbers.

17. Unfortunately, BellSouth's inability to obtain numbering resources in the above offices, which was necessary to meet its customers numbering demands in multi-switch rate centers, will not be the last time BellSouth experiences this problem. BellSouth has a total of 101 rate centers in Florida with 30 of these being multi-switch rate centers. Some of the switches within these multi-switch rate centers are already within or near the six MTE. BellSouth, however, believes that it will be unable to meet the six MTE threshold at the rate center level in all of these multi-switch rate centers, causing serious problems with fulfilling its carrier of last resort obligations.

18. BellSouth requests that the Commission's reverse NANPA's decision to withhold numbering resources from BellSouth on the following grounds:

(a) NANPA's denial of numbering resources to BellSouth interferes with BellSouth's ability to serve its customers within the State of Florida.

(b) The MTE at the rate center level requirement is discriminatory against the incumbent LEC, since the ILEC is typically the only local service provider with multiple switches in a rate center. The ILEC deploys multiple switches in a rate center in order to

meet customer demand for telephone service. The new FCC rules for obtaining numbering resources both penalizes and discriminates against the ILECs for deploying multiple switches. BellSouth believes that it is patently unfair to require that the ILEC only get six MTE in all the switches it has deployed in a rate center, when the ALECs, which have recently entered the local service market, have to meet the MTE requirement in only the single switch that they have deployed to serve their customers in a single rate center or even multiple rate centers.

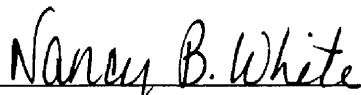

(d) As a result of NANPA's denial of BellSouth's request for additional numbering resources, BellSouth will be unable to provide telecommunications services to its customers as required under Florida law.

WHEREFORE, BellSouth requests:

1. The Commission review the decision of the NANPA to deny BellSouth's request for additional numbering resources; and
2. The Commission direct NANPA to provide the requested codes for the Miami exchange discussed above.

Respectfully submitted this 18th day of July, 2001.

	Month #1	Month #2	Month #3	Month #4	Month #5	Month #6	Month #7	Month #8	Month #9	Month #10	Month #11	Month #12
B. Previous 6-month growth history:	<u>29,979</u>	<u>14,116</u>	<u>15,435</u>	<u>16,365</u>	<u>17,874</u>	<u>26,030</u>						
C. Forecast - Next months 1-125	<u>25,128</u>	<u>25,881</u>	<u>26,657</u>	<u>27,457</u>	<u>28,281</u>	<u>29,130</u>	<u>30,002</u>	<u>34,502</u>	<u>39,677</u>	<u>45,629</u>	<u>52,473</u>	<u>60,344</u>
D. Average Monthly Forecast (Sum of months 1-6 Part C above divided by 6):	<u>27,089</u>											
E. Months to Exhaust =	$\frac{\text{Telephone Numbers (TNs) Available for Assignment (A)}}{\text{Average Monthly Forecast (D)}}$						= <u>10.6</u>					

F. Utilization Level = $\frac{\text{Telephone Numbers (TNs) Assigned}}{\text{Total Numbering Resources in Applicant's Inventory}}$

X 100 = 77.04 %

Code for growth in MIAMFLCAOSS

planator:

1 A copy of this worksheet is required to be submitted to the Code Administrator, for audit purposes, it must be in the applicant's files.

2 Repeat on all resources for the requested geographic area, including newly acquired codes.

3 Definitions of terms may be found in the Glossary section of the Central Office Code (NOC) Assignment Guidelines.

4 Not change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.

4 Forecast of TNs needed in each following month, starting with the most recent month as Month #1. In a jeopardy situation, only 6 months growth projection is required.

4 Forecast of TNs needed in each following month, starting with the most recent month as Month #1. In a jeopardy situation, only 6 months growth projection is required. (FCC 00-104, § 52.15 (g) (3) (ii))
