Mrs. Blanca S. Bayo
Director, Division of Commission Clerk and Administrative Services
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399

01111-TP

Re: Approval of an Amendment to the Interim Interconnection, and Unbundling Agreement Negotiated by BellSouth Telecommunications, Inc. ("BellSouth") and Sprint Communications Company Limited Partnership pursuant to Sections 251, 252 and 271 of the Telecommunications Act of 1996

Dear Mrs. Bayo:

Pursuant to section 252(e) of the Telecommunications Act of 1996, BellSouth and Sprint Communications Company Limited Partnership are submitting to the Florida Public Service Commission an amendment to their negotiated agreement for the interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to Sprint Communications Company Limited Partnership. The Commission approved the initial agreement between the companies in Order No. PSC-01-0784-FOF-TP issued March 26, 2001 in Docket 010084-TP. This amendment provides for Loop Makeup in Florida pursuant to the rates, terms, and conditions set forth in Attachment 1 to this amendment.

Pursuant to section 252(e) of the Act, the Commission is charged with approving or rejecting the negotiated agreement between BellSouth and Sprint Communications Company Limited Partnership within 90 days of its submission. The Act provides that the Commission may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity. Both parties aver that neither of these reasons exist as to the agreement they have negotiated and therefore, are very hopeful that the Commission shall approve their agreement.

Very truly yours,

Marshall M. Criser III

Regulatory Vice President (KA)

FPSC-COMMISSION CLERK

Amendment to the Agreement Between Sprint Communications Company Limited Partnership and BellSouth Telecommunications, Inc. Florida

Pursuant to this Amendment, (the "Amendment"), Sprint Communications Company Limited Partnership ("Sprint"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated November 7, 2000 ("Agreement").

WHEREAS, BellSouth and Sprint entered into the Agreement on November 7, 2000, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. BellSouth shall provide Sprint access to the pre-ordering Loop Makeup service pursuant to the rates, terms and conditions set forth in Attachment 1 to this Amendment, incorporated herein by reference.
2. All of the other provisions of the Agreement shall remain in full force and effect.
3. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

Preordering Loop Makeup

1. Preordering Loop Makeup (LMU)
 - 1.1 Description of Service
 - 1.1.1 BellSouth shall make available to Sprint loop makeup (LMU) information so that Sprint can make an independent judgment about whether the loop is capable of supporting the advanced services equipment Sprint intends to install and the services Sprint wishes to provide. This section addresses LMU as a *preordering* transaction, distinct from Sprint ordering any other service(s). Loop Makeup *Service Inquiries (LMUSI) for preordering loop makeup* are likewise unique from other preordering functions with associated service inquiries (SI) as described in this Agreement.
 - 1.1.2 BellSouth will provide Sprint with loop makeup information consisting of the composition of the loop material (copper/fiber); the existence, location and type of equipment on the loop, including but not limited to digital loop carrier or other remote concentration devices, feeder/distribution interfaces, bridge taps, load coils, pair-gain devices; the loop length; the wire gauge and electrical parameters.
 - 1.1.3 BellSouth's LMU information is provided to Sprint as it exists either in BellSouth's databases or in its hard copy facility records. BellSouth does not guarantee accuracy or reliability of the LMU information provided.
 - 1.1.4 Sprint may choose to use equipment that it deems will enable it to provide a certain type and level of service over a particular BellSouth loop. The determination shall be made solely by Sprint and BellSouth shall not be liable in any way for the performance of the advanced data services provisioned over said loop. The specific loop type (ADSL, HDSL, or otherwise) ordered on the LSR must match the LMU of the loop requested taking into consideration any requisite line conditioning. The LMU data is provided for informational purposes only and does not guarantee Sprint's ability to provide advanced data services over the ordered loop type. Further, if Sprint orders loops that are not intended to support advanced services (such as UV-SL1, UV-SL2, or ISDN compatible loops) and that are not inventoried as advanced services loops, the LMU information for such loops is subject to change at any time due to modifications and/or upgrades to BellSouth's network. Sprint is fully responsible for any of its service configurations that may differ from BellSouth's technical standard for the loop type ordered.
 - 1.2 Submitting Loop Makeup Service Inquiries
 - 1.2.1 Sprint may obtain LMU information by submitting a LMUSI mechanically or manually. **Mechanized** LMUSIs should be submitted through BellSouth's Operational

Support Systems interfaces. After obtaining the loop information from the mechanized LMUSI process, if Sprint needs further loop information in order to determine loop service capability, Sprint may initiate a separate manual LMUSI for a separate nonrecurring charge as set forth in Section 2.

1.2.2 **Manual LMUSIs shall be submitted by electronic mail to BellSouth’s Complex Resale Support Group (CRSG)/Account Team utilizing the Preordering Loop Makeup Service Inquiry form. The service interval for the return of a Loop Makeup Manual Service Inquiry is seven business days. Manual LMUSIs are not subject to expedite requests. This service interval is distinct from the interval applied to the subsequent service order.**

1.3.1 **Loop Reservations**

1.3.2 **Sprint may reserve facilities for up to four (4) calendar days for each facility requested on a LMUSI from the time the LMU information is returned to Sprint. During and prior to Sprint placing an LSR, the reserved facilities are rendered unavailable to other customers, including BellSouth. If Sprint does not submit an LSR for a UNE service on a reserved facility within the four-day reservation timeframe, the reservation of that spare facility will become invalid and the facility will be released.**

1.3.3 **For a Mechanized LMUSI, Sprint may reserve up to ten loop facilities. For a Manual MNUSI, Sprint may reserve up to three loop facilities.**

1.3.4 **Charges for preordering LMUSI are separate from any charges associated with ordering other services from BellSouth.**

1.4 **Ordering of Other UNE Services**

1.4.1 **All LSRs issued for reserved facilities shall reference the facility reservation number as provided by BellSouth. Sprint will not be billed any additional LMU changes for the loop ordered on such LSR. If, however, Sprint does not reserve facilities upon an initial LMUSI, Sprint’s placement of an order for an advanced data service type facility shall be deemed placed for such a facility rate element that “includes manual service inquiry and reservation” per the rate matrix of this Attachment.**

1.4.2 **Where Sprint has reserved multiple loop facilities on a single reservation, Sprint may not specify which facility shall be provisioned when submitting the LSR. For those occasions, BellSouth will assign to Sprint, subject to availability, a facility that meets the BellSouth technical standards of the BellSouth type loop as ordered by Sprint. If the ordered loop type is not available, Sprint may utilize the Unbundled Loop Modification process or the Special Construction process, as applicable, to obtain the loop type ordered.**

2 **Pricing**
