## COMPANY INFORMATION

Please enter your company information below.

Parent OCN refers to the OCN of the reporting carrier's parent company located within the applicable state. If the reporting carrier has more than one parent company in a particular state (e.g., if the reporting carrier is a subsidiary of company A, which in turn is a subsidiary of company B, so that both companies A and B could be deemed the reporting carrier's "parent"), the reporting carrier should report the OCN of the highest parent company (in this example, the appropriate parent would be Company B).

# INSTRUCTIONS FOR UTILIZATION AND FORECAST FORMS

Go To The Main Menu

**>>>Please Read Thoroughly Before Completing Forms<<<**

## When to File:

Reporting carriers shall file utililization and forecast reports semi-annually on or before February 1 for the preceding 6 month reporting period ending on December 31, and on or before August 1 for the preceding 6 month reporting period ending on June 30. Reporting is mandatory.

## PART 1 - UTILIZATION INSTRUCTIONS

Choose the appropriate utilization form from the "Main Menu" page by clicking on the appropriate button:

**U1** Non-Rural Primary Carriers
All carriers report at 1000 block level per Rate Center

**U2** Rural Primary Carriers
All carriers report at NPA-NXX code level per Rate Center.

**U3** Non-Rural Intermediate Carriers
All carriers report at 1000 block level per Rate Center

**U4** Rural Intermediate Carriers
All carriers report at NPA-NXX code level per Rate Center.

Approved by OMB

Carriers that receive numbering resources both from the Numbering or Pooling Administrator and from another carrier, or that are rural carriers in some but not all areas, will need to complete more than one utilization form to account for all of their numbering resources.

**Carrier Types:**

**Primary Carrier** is defined as a carrier that receives numbers directly from the Numbering or Pooling Administrator. Forms U1 and U2 are used by these carriers to report number utilization.

***Intermediate Carrier*** is defined as a carrier that receives numbers from another carrier. Forms U3 and U4 are used by these carriers to report number utilization.

**Rural Carrier** is defined in the Communications Act, 47 U.S.C.§153(37) . Rural carriers must, in addition to completing the appropriate utilization and forecast forms, complete a Rural Status Certification Form (available from the "Main Menu").

**Utilization Data:**

**NPA-NXX**
Rural carriers completing forms U2 or U4 report utilization at the NXX level. For each NXX in which your company has numbering resources, enter the NPA-NXX and the quantity of **Assigned, Intermediate, Reserved, Aging and Administrative** numbers. Enter one line for each NXX below the Headers. Do not leave any blank lines between your entries.

**NPA-NXX-X**

Non rural carriers completing Forms U1 or U3 report utilization at the 1000 block level. For each NPA-NXX-X in which your company has numbering resources, enter the NPA-NXX-X and the quantity of **Assigned, Intermediate, Reserved, Aging and Administrative** numbers. Enter one line for each 1000 block below the Headers. Do not leave any blank lines between your entries.

**LERG Rate Center Name and State**

Both Rural and Non-Rural Carriers must also enter the name of each Rate Center in which your company has numbering resources as it appears in the LERG Table 8 under RC ABBREV. Rural Carriers must also enter the 2 character abbreviation of the state in which the Rate Center/NPA is located for which you are reporting.

**Usage Categories**

Each utilization form requires that numbers be reported in five categories as defined in FCC Order 00-104. A sixth category, "Available," is automatically calculated and no entry is required. The "Available" calculation is created when you click on the "Check the Data Before Submitting" button.

**Assigned:** Enter the quantity of Telephone Numbers (TNs) that are classified as "Assigned" for each identified NPA-NXX or NPA-NXX-X. Assigned numbers are defined as "numbers working in the Public Switched Telephone Network under an agreement such as a contract or tariff at the request of specific end users or customers for their use, or numbers not yet working but having a customer service order pending. Numbers that are not yet working and have a service order pending for more than five days shall not be classified as assigned numbers."

**Intermediate:** Enter the quantity of TNs that are classified as "Intermediate" for each identified NPA-NXX or NPA-NXX-X. Intermediate numbers are defined as "numbers that are made available for use by

NXX or NPA-NXX-X. Intermediate numbers are defined as "numbers that are made available for use by another telecommunications carrier or non-carrier entity for the purpose of providing telecommunications service to an end user or customer." An exception to this requirement is numbers ported for the purpose of transferring an established customer's service to another service provider, in which case the numbers are classified as "Assigned" by the porting carrier and not counted by the receiving carrier.

For intermediate numbers provided by carriers to non-carrier entities, the providing carrier must report utilization for these numbers. Numbers assigned to end users by a non-carrier entity should be reported by the providing carrier as "Assigned." Any remaining numbers held by a non-carrier entity that are not assigned to end users shall be reported by the providing carrier as "Intermediate." The sum of numbers reported by the carrier for the non-carrier entity in these two categories should always equal the total of numbers held by the non-carrier entity.

**Reserved:** Enter the quantity of TNs that are classified as "Reserved" for each identified NPA-NXX or NPA-NXX-X. Reserved numbers are defined as "numbers that are held by service providers at the request of specific end users or customers for their future use". Numbers held for specific end users or customers for more than 45 days shall not be classified as reserved numbers.

**Aging:** Enter the quantity of TNs that are classified as "Aging" for each identified NPA-NXX or NPA-NXX-X. Aging numbers are defined as "disconnected numbers that are not available for assignment to another end user or customer for a specified period of time." Numbers previously assigned to residential

customers may be aged for no more than 90 days. Numbers previously assigned to business customers may be aged for no more than 365 days.

**Administrative:** Enter the quantity of TNs that are classified as "Administrative" for each identified NPA-NXX or NPA-NXX-X. Administrative numbers are defined as "numbers used by telecommunications carriers to perform internal administrative or operational functions necessary to maintain reasonable quality of service standards."

**Donated to Pool:** Enter an "X" if the NPA-NXX-X block has been donated to a pool.

**Quantities of Numbers Received:** Enter the total quantity of numbers received.

**Notes/Assignee:** Intermediate carriers - enter the name of the carrier from which you received numbers. Primary carriers - enter the name of the entity to which you gave numbers.

**Completion**

Confirm that the data requested above has been provided for all of the numbering resources which are allocated to your company then click on the "Check the Data Before Submitting" button. Formulas that automatically calculate the Available and Utilization values will be added to each row where data has been entered. Also, the data entered will be checked for format and to see that it is within valid ranges. Error/Check messages will be added on the right end of each row that should be checked and corrected before submitting the form to NANPA.

## PART 2 - FORECAST INSTRUCTIONS

Choose the appropriate forecast form from the "Main Menu" page by clicking on the appropriate button:

Approved by OMB

F1a Pooling Carriers - Initial
F1b Pooling Carriers - Growth

F2a Non-Pooling Carriers in Pooling Areas - Initial
F2b Non-Pooling Carriers in Pooling Areas - Growth

F3a Carriers in Non-Pooling Areas - Initial
F3b Carriers in Non-Pooling Areas - Growth

Carriers that pool in some but not all areas in which they have numbering resources, or that have numbering resources in both pooling and non-pooling areas, need to complete more than one pair of forms to account for all of their numbering resources.

**Carrier Types:**

**Pooling Carrier** is defined as a carrier that donates to and receives numbers from a number pool. Forms F1a and F1b are used by these carriers to forecast number requirements.

**Non Pooling Carrier in Pooling Areas** is defined as a carrier that provides service in areas where there is number pooling, but does not donate to or receive numbers from the number pool. Forms F2a and F2b are used by these carriers to forecast number requirements.

**Carrier in Non-pooling area** is defined as a carrier that provides service in areas where there is no number pooling. Forms F3a and F3b are used by these carriers to forecast number requirements.

Approved by OMB

## Forecast Data:

### Initial versus Growth

Initial numbering resources are the first numbering resources received by a carrier in a particular area. Growth numbering resources are additional numbering resources received by a carrier already established in a particular area.

### NPA

Enter the NPA for which you are providng forecast data.

### LERG Rate Center Name

Enter the name of each Rate Center name as it appears in the LERG Table 8 under RC ABBREV.

### State

Enter the 2 character abbreviation of the State in which the NPA or Rate Center is located for which you are pro

### Pooling Carriers

Enter the number of Initial and Growth 1000 blocks that your company will require for each applicable Rate Center for the next five years.

### Non-Pooling Carriers in Pooling Areas

Enter the number of Initial and Growth NXX codes that your company will require for each applicable Rate Center for the next five years.

### Carriers in Non-Pooling Areas

Enter the number of Initial and Growth NXX codes that your company will require for each applicable NPA for

Enter the number of Initial and Growth NXX codes that your company will require for each applicable NPA for the next five years.

**Completion**

Confirm that the data requested above has been provided for all applicable states, NPAs and Rate Centers then click on the "Check the Data Before Submitting" button. A formula that automatically calculates the Total NXXs or 1K Blocks will be added to each row where data has been entered. Also, the data entered will be checked for format and to see that it is within valid ranges. Error/Check messages will be added on the right end of each row that should be checked and corrected before submitting the form to NANPA.

**Submit Forms**

Save this workbook to a file in an Excel® format (e.g. cocus.xls). Then send an e-mail to NANPA at cocus@neustar.com with the file you saved attached to the e-mail. If you are submitting the informtion via fax or EFT (Electronic File Transfer), please vist the NANPA website at http://www.nanpa.com for additional information. For additional questions or instructions contact NANPA at 1-202-533-2654.

## COMPANY INFORMATION

Please enter your company information below.

Parent OCN refers to the OCN of the reporting carrier's parent company located within the applicable state. If the reporting carrier has more than one parent company in a particular state (e.g., if the reporting carrier is a subsidiary of company A, which in turn is a subsidiary of company B, so that both companies A and B could be deemed the reporting carrier's "parent"), the reporting carrier should report the OCN of the highest parent company (in this example, the appropriate parent would be Company B).

# INSTRUCTIONS FOR UTILIZATION AND FORECAST FORMS

Go To The Main Menu

**>>>Please Read Thoroughly Before Completing Forms<<<**

## When to File:

Reporting carriers shall file utililization and forecast reports semi-annually on or before February 1 for the preceding 6 month reporting period ending on December 31, and on or before August 1 for the preceding 6 month reporting period ending on June 30. Reporting is mandatory.

## PART 1 - UTILIZATION INSTRUCTIONS

Choose the appropriate utilization form from the "Main Menu" page by clicking on the appropriate button:

**U1** Non-Rural Primary Carriers
All carriers report at 1000 block level per Rate Center

**U2** Rural Primary Carriers
All carriers report at NPA-NXX code level per Rate Center.

**U3** Non-Rural Intermediate Carriers
All carriers report at 1000 block level per Rate Center

**U4** Rural Intermediate Carriers
All carriers report at NPA-NXX code level per Rate Center.

Approved by OMB

Carriers that receive numbering resources both from the Numbering or Pooling Administrator and from another carrier, or that are rural carriers in some but not all areas, will need to complete more than one utilization form to account for all of their numbering resources.

**Carrier Types:**

**Primary Carrier** is defined as a carrier that receives numbers directly from the Numbering or Pooling Administrator. Forms U1 and U2 are used by these carriers to report number utilization.

**Intermediate Carrier** is defined as a carrier that receives numbers from another carrier. Forms U3 and U4 are used by these carriers to report number utilization.

**Rural Carrier** is defined in the Communications Act, 47 U.S.C.§153(37) . Rural carriers must, in addition to completing the appropriate utilization and forecast forms, complete a Rural Status Certification Form (available from the "Main Menu").

**Utilization Data:**

**NPA-NXX**

Rural carriers completing forms U2 or U4 report utilization at the NXX level. For each NXX in which your company has numbering resources, enter the NPA-NXX and the quantity of **Assigned, Intermediate, Reserved, Aging and Administrative** numbers. Enter one line for each NXX below the Headers. Do not leave any blank lines between your entries.

**NPA-NXX-X**

Non rural carriers completing Forms U1 or U3 report utilization at the 1000 block level. For each NPA-NXX-X in which your company has numbering resources, enter the NPA-NXX-X and the quantity of **Assigned, Intermediate, Reserved, Aging and Administrative** numbers. Enter one line for each 1000 block below the Headers. Do not leave any blank lines between your entries.

**LERG Rate Center Name and State**

Both Rural and Non-Rural Carriers must also enter the name of each Rate Center in which your company has numbering resources as it appears in the LERG Table 8 under RC ABBREV. Rural Carriers must also enter the 2 character abbreviation of the state in which the Rate Center/NPA is located for which you are reporting.

**Usage Categories**

Each utilization form requires that numbers be reported in five categories as defined in FCC Order 00-104. A sixth category, "Available," is automatically calculated and no entry is required. The "Available" calculation is created when you click on the "Check the Data Before Submitting" button.

**Assigned:** Enter the quantity of Telephone Numbers (TNs) that are classified as "Assigned" for each identified NPA-NXX or NPA-NXX-X. Assigned numbers are defined as "numbers working in the Public Switched Telephone Network under an agreement such as a contract or tariff at the request of specific end users or customers for their use, or numbers not yet working but having a customer service order pending. Numbers that are not yet working and have a service order pending for more than five days shall not be classified as assigned numbers."

**Intermediate:** Enter the quantity of TNs that are classified as "Intermediate" for each identified NPA-NXX or NPA-NXX-X. Intermediate numbers are defined as "numbers that are made available for use by

NXX or NPA-NXX-X. Intermediate numbers are defined as "numbers that are made available for use by another telecommunications carrier or non-carrier entity for the purpose of providing telecommunications service to an end user or customer." An exception to this requirement is numbers ported for the purpose of transferring an established customer's service to another service provider, in which case the numbers are classified as "Assigned" by the porting carrier and not counted by the receiving carrier.

For intermediate numbers provided by carriers to non-carrier entities, the providing carrier must report utilization for these numbers. Numbers assigned to end users by a non-carrier entity should be reported by the providing carrier as "Assigned." Any remaining numbers held by a non-carrier entity that are not assigned to end users shall be reported by the providing carrier as "Intermediate." The sum of numbers reported by the carrier for the non-carrier entity in these two categories should always equal the total of numbers held by the non-carrier entity.

**Reserved:** Enter the quantity of TNs that are classified as "Reserved" for each identified NPA-NXX or NPA-NXX-X. Reserved numbers are defined as "numbers that are held by service providers at the request of specific end users or customers for their future use". Numbers held for specific end users or customers for more than 45 days shall not be classified as reserved numbers.

**Aging:** Enter the quantity of TNs that are classified as "Aging" for each identified NPA-NXX or NPA-NXX-X. Aging numbers are defined as "disconnected numbers that are not available for assignment to another end user or customer for a specified period of time." Numbers previously assigned to residential

customers may be aged for no more than 90 days. Numbers previously assigned to business customers may be aged for no more than 365 days.

**Administrative:** Enter the quantity of TNs that are classified as "Administrative" for each identified NPA-NXX or NPA-NXX-X. Administrative numbers are defined as "numbers used by telecommunications carriers to perform internal administrative or operational functions necessary to maintain reasonable quality of service standards."

**Donated to Pool:** Enter an "X" if the NPA-NXX-X block has been donated to a pool.

**Quantities of Numbers Received:** Enter the total quantity of numbers received.

**Notes/Assignee:** Intermediate carriers - enter the name of the carrier from which you received numbers. Primary carriers - enter the name of the entity to which you gave numbers.

**Completion**

Confirm that the data requested above has been provided for all of the numbering resources which are allocated to your company then click on the "Check the Data Before Submitting" button. Formulas that automatically calculate the Available and Utilization values will be added to each row where data has been entered. Also, the data entered will be checked for format and to see that it is within valid ranges. Error/Check messages will be added on the right end of each row that should be checked and corrected before submitting the form to NANPA.

## PART 2 - FORECAST INSTRUCTIONS

Choose the appropriate forecast form from the "Main Menu" page by clicking on the appropriate button:

Approved by OMB

F1a Pooling Carriers - Initial
F1b Pooling Carriers - Growth

F2a Non-Pooling Carriers in Pooling Areas - Initial
F2b Non-Pooling Carriers in Pooling Areas - Growth

F3a Carriers in Non-Pooling Areas - Initial
F3b Carriers in Non-Pooling Areas - Growth

Carriers that pool in some but not all areas in which they have numbering resources, or that have numbering resources in both pooling and non-pooling areas, need to complete more than one pair of forms to account for all of their numbering resources.

**Carrier Types:**

**Pooling Carrier** is defined as a carrier that donates to and receives numbers from a number pool. Forms F1a and F1b are used by these carriers to forecast number requirements.

**Non Pooling Carrier in Pooling Areas** is defined as a carrier that provides service in areas where there is number pooling, but does not donate to or receive numbers from the number pool. Forms F2a and F2b are used by these carriers to forecast number requirements.

**Carrier in Non-pooling area** is defined as a carrier that provides service in areas where there is no number pooling. Forms F3a and F3b are used by these carriers to forecast number requirements.

Approved by OMB

## Forecast Data:

### Initial versus Growth
Initial numbering resources are the first numbering resources received by a carrier in a particular area. Growth numbering resources are additional numbering resources received by a carrier already established in a particular area.

### Carriers in Non-Pooling Areas
Enter the number of Initial and Growth NXX codes that your company will require for each applicable NPA for

Enter the number of Initial and Growth NXX codes that your company will require for each applicable NPA for the next five years.

## Completion

Confirm that the data requested above has been provided for all applicable states, NPAs and Rate Centers then click on the "Check the Data Before Submitting" button. A formula that automatically calculates the Total NXXs or 1K Blocks will be added to each row where data has been entered. Also, the data entered will be checked for format and to see that it is within valid ranges. Error/Check messages will be added on the right end of each row that should be checked and corrected before submitting the form to NANPA.

## Submit Forms

Save this workbook to a file in an Excel® format (e.g. cocus.xls). Then send an e-mail to NANPA at cocus@neustar.com with the file you saved attached to the e-mail. If you are submitting the informtion via fax or EFT (Electronic File Transfer), please vist the NANPA website at http://www.nanpa.com for additional information. For additional questions or instructions contact NANPA at 1-202-533-2654.
