In re: Docket No. 011073-WS – Application of Ferncrest Utilities, Inc.  
for Increased Water and Wastewater Rates

Dear Ms. Bayo:

On August 24, 2001, the Commission approved a test year for Ferncrest Utilities rate application and established November 26, 2001, as the MFRs filing date.

On November 13, 2001, the utility and the Commission staff participated in a noticed telephone conference call to discuss preliminary schedules prepared by the utility. At the conclusion of the call, the utility recognized the need to modify some of the schedule and discussed a new filing date with staff.

Ferncrest Utilities, Inc. hereby requests that January 11, 2002, be established as the new filing date for MFRs. The utility believes that the staff would not object to this extension of time to file MFRs.

Thank you for your attention to this request.

Sincerely,

David B. Erwin
