Re: Docket 011522

Dear Ms Fondo;

When I spoke with you last I indicated to you that we were fairly sure that we had forwarded to you by fax the report as required. However after a through search of our records here we are not able to substantiate our claim.

To that end we apologize that you did not receive the report in the time required. During the time the report was to have been submitted we were in the process of remodeling our office. This along with a reassignment of responsibilities here may have contributed to this apparent omission on our part.

To ensure that there is not a repeat of this oversight on our part again, we have implemented safeguards to assure compliance. Responsible employees have been made aware of the importance of complying with the PSC requirements in a timely manner.

The looming possibilities of a fine in the amount of \$5,000, I assure you serves as added incentive to comply timely.

Rebound Enterprises, Inc. would respectfully submit to you a request to settle this concern by paying a penalty of \$450.00 instead of the \$5.000 allowed by law. We do understand the seriousness of this concern, and we would appreciate it if you would consider our request.

Sincerely,

Carl J. Burgess, President

cc: Ms. Melinda Watts
