COMMISSION
CLERK

Re: Docket No. 990649B-TP
Investigation into Pricing of Unbundled Network Elements (Sprint/Verizon track)

Dear Ms. Bayo:

Please find enclosed the following items, which update or revise documents that Verizon Florida Inc. filed earlier in this proceeding:

1. An original and 15 copies of revised pages 21, 23, and 24 for Bert I. Steele's Direct Testimony, filed on November 7, 2001. These pages reflect changes in numeric data that were necessary to match the data in Exhibits BIS-1, BIS-2, and BIS-3. Please associate these new pages with Mr. Steele's Direct Testimony and discard the superseded pages.
2. An original and 15 copies of revised page 3 of 5 of Exhibit BIS-1. This page was updated to include the ordering and service connection rates for interoffice dedicated transport (IDT) and CLEC dedicated transport (CDT), previously shown as "tbd".
3. An original and 15 copies of an exhibit labeled "Local Wholesale Elements - IDT and CDT." This exhibit shows the underlying costs for the IDT and CDT rates shown on the updated Exhibit BIS-1. These costs are reflected in Verizon's NRC cost study filed on November 7, 2001; however, the study template did not carry these costs forward to the appropriate section in the rate summary, thus making this new exhibit necessary.

4. An original and 15 copies of corrected pages 4 of 9 and 5 of 9 of the Wholesale UNE Pricing Schedule. These pages were updated to include the ordering and service connection rates for IDT and CDT, previously shown as "tbd".

The foregoing items are being provided to all parties of record. If there are any questions regarding the above corrections, please contact Mr. Reynee Dominguez in Verizon's Regulatory Group at 813-483-2530.

Sincerely,

KC Kimberly Caswell

1 flows into the NMC for processing.

2

3 **Q. HOW WERE THE VARIABLE AND NMC SHARED / FIXED COSTS**
4 **DEVELOPED?**

5 A. The variable costs were developed based on the time needed to process
6 the different types of CLEC orders. Verizon Witness Richter's testimony
7 explains how the costs were developed by studying the different activities
8 associated with different types of CLEC requests and by applying current
9 labor rates. The NMC shared / fixed costs were developed based on the
10 costs actually incurred, as described in the Verizon cost study sponsored
11 by Mr. Richter. Again, Verizon proposes to recover these costs through
12 an additional amount included in the non-recurring rate for each LSR. As
13 is documented in my Exhibit BIS-2 and Exhibit BIS-3, whenever a CLEC
14 places an order involving the NMCs, the CLEC's "ordering" non-recurring
15 rate includes \$4.44 for recovery of shared / fixed NMC costs. This
16 amount was developed by taking the annual NMC shared / fixed costs of
17 \$18.498 million and dividing it by the 4.170 million average annual CLEC
18 orders expected over the 2001-2005 period.

19

20 **Q. PLEASE DESCRIBE THE ISSUES ASSOCIATED WITH MLPQ COST**
21 **RECOVERY.**

22 A. The Company proposes a non-recurring rate additive amount for
23 recovery of the transition cost that Verizon realized to allow CLECs to
24 perform loop qualification utilizing the MLPQ process. Given that MLPQ
25 costs should be recovered from CLECs (because they are the parties

1 have been processed within the old GTE serving territories. The per-LSR
 2 rate additives could be applied beyond the three-year recovery period if
 3 demand forecasts are overstated. This method provides a fair and
 4 equitable means of recovering Verizon's MLPQ transition costs.

5

6 **Q. YOU HAVE ADDRESSED VERIZON'S PROPOSED RECOVERY OF ITS**
 7 **VARIABLE COSTS, ITS NMC SHARED / FIXED COSTS AND ITS**
 8 **MLPQ COSTS. PLEASE PROVIDE AN EXAMPLE OF THESE COST**
 9 **ELEMENTS OR RATE ADDITIVES USING THE PROPOSED NON-**
 10 **RECURRING RATES LISTED ON EXHIBIT BIS-1.**

11 A. Exhibit BIS-1 lists the proposed ordering and service connection rates for
 12 a 2-wire loop (*i.e.*, an exchange-basic loop). The total cost of ordering
 13 (using the semi-mechanized method) is \$36.91 and the proposed non-
 14 recurring rate equals this cost (as stated above, without a common cost
 15 mark-up). Exhibit BIS-2 also provides the detail supporting this rate,
 16 including the variable costs associated with this order plus a share of the
 17 NMC shared / fixed costs. The exhibit also provides a place marker for
 18 OSS costs to be addressed in a separate proceeding (*i.e.*, these OSS
 19 costs are to be determined ("TBD") in separate proceeding). The
 20 proposed non-recurring rate of \$36.91 is also provided below by rate
 21 element or cost recovery component.

22

<u>Rate Element Component</u>	<u>Amount Per-LSR Order</u>
Variable Ordering Cost	\$32.47
NMC Shared/Fixed Cost	\$ 4.44

1	OSS Transaction-Specific Cost	TBD in separate proceeding
2	OSS Transition Costs	TBD in separate proceeding
3	Total	\$36.91

4

5 Exhibit BIS-1 also provides the total cost and proposed non-recurring
6 rates for service connection. For the 2-wire UNE loop, this rate is \$102.84
7 for the initial line on the LSR order, which recovers the costs incurred in
8 the provisioning of line sharing. This service connection non-recurring
9 rate includes the variable costs. It does not include a share of the NMC
10 shared / fixed cost, since the NMC cost is caused by the ordering and not
11 the service connection. Likewise, the service connection rate does not
12 include OSS costs. Both NMC shared / fixed costs and MLPQ costs,
13 from a cost recovery perspective, are addressed in Verizon's proposed
14 non-recurring rates for LSR orders (*i.e.*, in the ordering rates and not the
15 service connection rate).

16

17 **Q. VERIZON PROPOSES A SERVICE INQUIRY CHARGE FOR DARK**
18 **FIBER. PLEASE ADDRESS THIS CHARGE IN MORE DETAIL.**

19 A. Verizon has established a pre-ordering process, or dark fiber inquiry, to
20 determine if dark fiber is available between the locations and in the
21 quantities specified by the CLEC. The charge for this preordering activity
22 is based on Verizon's costs to review its cable records and is listed on
23 Exhibit BIS-1 as "Advanced – Service Inquiry Charge" in the "Unbundled
24 Dark Fiber" section of the exhibit. The inquiry charge is separate from
25 other non-recurring charges or rates for ordering and connection of dark
