Re: Enron Telecommunications, Inc. - Notice of Voluntary Petition for Reorganization

Dear Ms. Bayo:

As you may already be aware, Enron Corp. ("Enron") filed a petition for Chapter 11 reorganization in the U.S. Bankruptcy Court for the Southern District of New York in order to reorganize its operations and financial structure. Enron Telecommunications, Inc. ("ETI") is a licensee of Enron and is certificated to provide telecommunications service in Florida. This letter is intended to provide the Florida Public Service Commission ("Commission") with official notice of this action.

Chapter 11 status will enable ETI to reorganize its debt and capital structure under court supervision so that ETI can continue to offer high quality services. During the Chapter 11 reorganization period, ETI plans to continue operations throughout its service territory, although some restructuring of its market operations will be necessary. The Chapter 11 filing does not affect the rates and conditions of service offered by ETI and any changes thereto will be in accordance with Commission policies. To the extent that ETI finds it necessary to restructure its markets in a manner that would affect certain customers, ETI will provide at least 30 days written notice to them in order to permit those customers to make other arrangements for service. ETI will use its best efforts to assist in any such transition.
