Re: Approval of Two Amendments to the Interconnection, Unbundling, Resale and Collocation Agreement Negotiated by BellSouth Telecommunications, Inc. ("BellSouth") and MediaOne Florida Telecommunications, Inc. n/k/a AT&T Broadband Phone of Florida d/b/a AT&T Digital Phone pursuant to Sections 251, 252 and 271 of the Telecommunications Act of 1996

Dear Mrs. Bayo:

Pursuant to section 252(e) of the Telecommunications Act of 1996, BellSouth and MediaOne Florida Telecommunications, Inc. n/k/a AT&T Broadband Phone of Florida d/b/a AT&T Digital Phone are submitting to the Florida Public Service Commission an amendment to their negotiated agreement for the interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to MediaOne Florida Telecommunications, Inc. n/k/a AT&T Broadband Phone of Florida d/b/a AT&T Digital Phone . The initial agreement between the companies was filed in Docket 990149-TP, on February 22, 2000, and was deemed effective by Order No. PSC-00-0634-FOF-TP on March 05, 2000. These amendments incorporate new UNE rates and updates their company name to reflect their recent name change.

Pursuant to section 252(e) of the Act, the Commission is charged with approving or rejecting this amendment to the negotiated agreement between BellSouth and MediaOne Florida Telecommunications, Inc. n/k/a AT&T Broadband Phone of Florida d/b/a AT&T Digital Phone within 90 days of its submission. The Act provides that the Commission may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity. Both parties agree that neither of these reasons exist as to the agreement they have negotiated and therefore, as such this amendment should be deemed effective by operation of law on April 8, 2002.

Very truly yours, -

Marshall M. Criser III

Regulatory Vice President

ATTACHMENT TO TRANSMITTAL LETTER

The Agreement entered into by and between MediaOne Florida Telecommunications, Inc. and BellSouth Telecommunications, Inc., dated July 12, 2001, for the state of Florida consists of the following:

ITEM	NO. PAGES
Amendment	4
Exhibit 1	3
TOTAL	7

**AMENDMENT TO
INTERCONNECTION AGREEMENT BETWEEN
MEDIAONE FLORIDA TELECOMMUNICATIONS, INC. AND
BELLSOUTH TELECOMMUNICATIONS, INC.
DATED FEBRUARY 22, 2000**

Pursuant to this Amendment (the "Amendment"), MediaOne Florida Telecommunications, Inc. ("MediaOne") and BellSouth Telecommunications, Inc. ("BellSouth") hereinafter referred to collectively as the "Parties" hereby agree to amend that certain Interconnection Agreement (the "Agreement") between BellSouth and MediaOne dated February 22, 2000.

WHEREAS, MediaOne hereby reserves all rights regarding access to Unbundled Subloop Elements. By agreeing to the language of this Amendment, it is in no way MediaOne's intent to limit its ability to access building wire or limit BellSouth's obligation to permit such access as mandated by the Florida Public Service Commission or any FCC Order.

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, MediaOne and BellSouth hereby covenant and agree as follows:

1. The Parties have agreed to add the following provisions for Unbundled Sub-loop Distributions to the Attachment 2, Section 6.6 of the Agreement:

6.6 Unbundled Sub-Loop (distribution facilities)

6.6.1 Definition

- 6.6.1.1. Subject to applicable and effective FCC rules and orders, the unbundled sub-loop distribution facility is dedicated transmission facility that BellSouth provides from a customer's point of demarcation to a BellSouth cross-connect device such as a Feeder Distribution Interface (FDI), typically located in a cross-box. The unbundled sub-loop distribution media is a copper twisted pair, which shall be capable of supporting any type of voice and/or data telecommunications signal that is technically feasible to carry on the particular distribution facility used, and shall support transmission signals with at least the same quality as when the same or similar distribution configuration is employed by BellSouth:

- 6.6.1.1.1 For the purposes of this Attachment the following are the current sub-loop distribution offerings;
- 6.6.1.1.2 Voice grade Unbundled Sub-Loop Distribution (USL-D) is a sub-loop facility provided by BellSouth from the cross-box in the field up to and including the point of demarcation, at the end user's premises.
- 6.6.1.1.3 Unbundled Copper Sub-Loop (UCSL) is a non-loaded copper facility of any length provided from the cross-box in the field up to and including the end-user's point of demarcation.
- 6.6.1.1.3.1 If available, this facility will not have any intervening equipment such as load coils between the end-user and the cross-box.
- 6.6.2 If AT&T requests a UCSL and a non-loaded pair is not available, AT&T may order Unbundled Sub-Loop Modification to remove load coils and/or bridge tap from an existing sub-loop facility. If load coils are removed from an existing sub-loop, that sub-loop will be classified as a UCSL. AT&T may order Loop Make-up to determine what loop modifications will be required.
- 6.6.3 Unbundled Sub-Loop distribution facilities shall support functions associated with provisioning, maintenance and testing of the Unbundled Sub-Loop. For access to Voice Grade USL-D and UCSL, AT&T would be required to deliver a cable to the BellSouth cross-box in the field to provide continuity to AT&T's feeder facilities. This cable would be connected, by a BellSouth technician, within the BellSouth cross-box during the set-up process. AT&T's cable pairs can then be connected to BellSouth's USL within the BellSouth cross-box by the BellSouth technician.
- 6.6.4 Through the Service Inquiry (SI) process, BellSouth will determine whether access to Unbundled Sub-Loops at the location requested by AT&T is technically feasible and whether sufficient capacity exists in the cross-box. If existing capacity is sufficient to meet AT&T's request, then BellSouth will perform the set-up as described in the section that follows. If any work must be done to modify existing BellSouth facilities or add new facilities (other than adding the cross-connect panel in a building equipment room as noted in the section that follows) to accommodate AT&T's request for Unbundled Sub-Loops, AT&T may request BellSouth's Special Construction (SC) process to determine additional costs required to provision the Unbundled Sub-Loops. After the quote, AT&T may decline the Special Construction. AT&T will have the option to proceed under the SC process to modify the BellSouth facilities.
- 6.6.5 Set-up work must be completed before AT&T can order sub-loop pairs. For the site set-up in a BellSouth cross-connect box in the field, BellSouth will perform the necessary work to splice AT&T's cable into the

BellSouth cross-connect box. For the set-up inside a building equipment room, BellSouth will perform the necessary work to install the cross-connect panel and the connecting block(s) that will be used to provide access to the requested USLs. The interval for the set-up will be handled on an individual case basis (ICB).

- 6.6.5.1 Once the set-up is complete, AT&T will request sub-loop pairs through submission of a Local Service Request (LSR) form to the Local Carrier Service Center (LCSC). If AT&T is not requesting the reuse of an existing facility or a new Sub-loop, Order Coordination is not required. If AT&T requests reuse of an existing BellSouth facility, Order Coordination is required. The provisioning of the order will include the physical removal of the BellSouth feeder wired to the BellSouth central office, and no additional charges will be assessed for this removal. For expedite requests by AT&T for sub-loop pairs, expedite charges will apply for intervals less than 5 days.
- 6.6.5.2 Unbundled Sub-Loop shall be equal to or better than each of the applicable requirements set forth in the applicable industry standard technical references.
- 6.6.5.3 Unbundled Sub-Loops will be provided in accordance with technical reference TR73600.

- 2. The rates for unbundled sub-loop distribution are as set for in Exhibit 1 of this amendment are interim, and shall be trueed up subject to the true-up provisions set forth in the Agreement, attached and incorporated herein by reference.
- 3. All of the other provisions of the Agreement, dated February 22, 2000, shall remain in full force and effect.
- 4. The Parties agree that either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

**AMENDMENT
TO THE
INTERCONNECTION AGREEMENT BETWEEN
MEDIAONE FLORIDA TELECOMMUNICATIONS, INC. AND
BELLSOUTH TELECOMMUNICATIONS, INC.
DATED FEBRUARY 22, 2000**

Pursuant to this Agreement, ("Amendment") MediaOne Florida Telecommunications, Inc. ("MediaOne") and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated February 22, 2000 ("Interconnection Agreement").

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

Pursuant to this Amendment the "Parties", hereby agree to amend the Interconnection Agreement to reflect MediaOne's change of name from MediaOne Florida Telecommunications, Inc. to AT&T Broadband Phone of Florida, LLC d/b/a AT&T Digital Phone.

1. The first paragraph of the preamble to the Interconnection Agreement is deleted in its entirety and replaced with the following:

This Agreement is made by and between BellSouth Telecommunications, Inc., ("BellSouth"), a Georgia corporation, and AT&T Broadband Phone of Florida, LLC d/b/a AT&T Digital Phone hereinafter referred to as ("AT&T Broadband"), a Delaware limited liability company, and shall be deemed effective as of February 22, 2000. This Agreement may refer to either BellSouth or AT&T Broadband or both as a "Party" or "Parties".

2. The name of MediaOne in the Interconnection Agreement is hereby deleted throughout and replaced with the name AT&T Broadband.

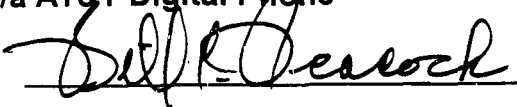

3. All of the other provisions of the Interconnection Agreement, dated February 22, 2000, shall remain in full force and effect.

4. Either or both of the Parties is authorized to submit this Amendment to each Public Service Commission for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

AT&T Broadband Phone of Florida, LLC
d/b/a AT&T Digital Phone

BellSouth Telecommunications, Inc.
