RE: Gulf Power Rate Case, DN 010949-EI
Correction of Witness James Breman's testimony

Greetings!

After prefilng his testimony, PSC Staff James Breman received supplemental information
from Gulf Power correcting their CEMI5 from 4% to 2%. Consequently, Mr. Breman's testimony
must be corrected to reflect this new number supplied by Gulf. Accordingly, PSC witness James
Breman's testimony should be corrected as follows:

Page 3, delete from the first full sentence on line 5 through line 9.

A. ~~Last year, Gulf Power Company estimated that 4 percent of its
customers experience more than five service interruptions. This is approximately
double the amount reported by the other Florida investor owned companies. So w~~

~~already know that some of Gulf Power Company's customers do not receive highly reliable service.~~

Page 8, delete the full sentence on line 5 and the last sentence of line 9.

A. ~~Gulf Power Company estimated a CEMI5 of 4 percent for year 2000. Mr. Fisher's testimony highlights various service reliability improvement activities that are either new activities or expansions of year 2000 activities. Therefore, on a going forward basis, distribution reliability should improve. Consequently setting CEMI5 to 4 percent is not appropriate.~~

Sincerely,

Lawrence D. Harris
Senior Attorney
