C. Financial capability.

The application <u>should contain</u> the applicant's audited financial statements for the most recent 3 years. If the applicant does not have audited financial statements, it shall so be stated.

The unaudited financial statements should be signed by the applicant's chief executive officer and chief financial officer affirming that the financial statements are true and correct and should include:

- 1. the balance sheet:
- 2. income statement: and
- 3. statement of retained earnings.

NOTE: This documentation may include, but is not limited to, financial statements, a projected profit and loss statement, credit references, credit bureau reports, and descriptions of business relationships with financial institutions.

Further, the following (which includes supporting documentation) should be provided:

- 1. <u>written explanation</u> that the applicant has sufficient financial capability to provide the requested service in the geographic area proposed to be served.
- 2. <u>written explanation</u> that the applicant has sufficient financial capability to maintain the requested service.
- 3. <u>written explanation</u> that the applicant has sufficient financial capability to meet its lease or ownership obligations.

Florida PSC

ALEC Application for Telecomsmart.com, Inc. Financial Capability

Telecomsmart.com, Inc.(Telecomsmart) was founded by veteran Florida
Telecommunications executive, Mark Mansour. The company counts among its
shareholders several former Florida Telecom executives including James Mansour and
John Mansour. Telecomsmart is financially backed by these three veteran telecom
executives with a cumulative net worth of over one hundred million dollars. The
company was originally financed in the year 2000 with over three million dollars of seed
capital. Future capital requirements will be met primarily by the existing shareholders.
We are committed to creating and maintaining a profitable strong competitive local
exchange carrier.

Telecomsmart has worked over the past two years in developing two reliable telecom distribution channels, Agent Partners and Internet e-commerce, as a master distributor for several competitive carriers. We are now continuing our planned expansion into competitive local services as an outgrowth of the needs our customers and our agent distribution partners for a reliable and quality alternative to the incumbent LECs.

Upon approval Telecomsmart will enter the Florida competitive market in phases as follows:

- <u>Phase I</u> Local Voice Service in BellSouth Territory utilizing Unbundled Network Elements – Platform (UNE-P) a/k/a loop-port combinations
- Phase II Local Voice Service in Sprint/United Territory utilizing UNE-P.
- <u>Phase III</u> Statewide Local Voice Service utilizing a combination of UNE-P and Enhanced Extended Loops (EELs) with owned or leased switching capabilities.
- <u>Phase IV</u> Interexchange Service (IXC) statewide utilizing owned or leased switching.

This implementation strategy will limit the demands on up-front capital and allow us to perfect our service offering, customer support systems, and Operating Support Systems (OSS) interfaces prior to making larger fixed capital investments in switching and transmission. We believe this will keep our debt low our service quality high and our cash flow and balance sheet strong.

All successful and financially independent service providers start with one thing, satisfied customers. Satisfied customers are the product of fair dealings and good operations. The founder and CEO, Mark Mansour, has extensive operating knowledge and experience in cLEC, IXC, and IP operations with particular expertise in Billing, Operational Support Systems, and customer services. We believe this experience will greatly enhance our operational efficiency and thus our cash flows and combined with our strong financial

backing will create an enduring service provider capable of maintaining service for its customers.

The company has very few lease or ownership obligations and does not see those obligations significantly increasing given the current phased implementation strategy. Current obligations are primarily comprised of office rent and business machine leases.

THIS PAGE MUST BE COMPLETED AND SIGNED

APPLICANT ACKNOWLEDGMENT STATEMENT

- 1. **REGULATORY ASSESSMENT FEE:** I understand that all telephone companies must pay a regulatory assessment fee in the amount of <u>.15 of one percent</u> of gross operating revenue derived from intrastate business. Regardless of the gross operating revenue of a company, a minimum annual assessment fee of \$50 is required.
- 2. GROSS RECEIPTS TAX: I understand that all telephone companies must pay a gross receipts tax of two and one-half percent on all intra and interstate business.
- 3. SALES TAX: I understand that a seven percent sales tax must be paid on intra and interstate revenues.
- **4. APPLICATION FEE:** I understand that a non-refundable application fee of \$250.00 must be submitted with the application.
