Re: Docket 001148-EI, Florida Power and Light Company's Request for  
Confidential Classification of Material Provided Pursuant to Supplemental  
Audit No. 01-249-4-1

Dear Mr. Freeman:

This in response to your two letters to me dated April 10, 2002, regarding certain issues in FPL's two confidentiality filings in the above identified docket, dated February 7, 2002 and March 27, 2002. Your letter raises questions about three documents or categories of documents: working paper 49-4; working papers 69-4/3-2 through 69-4/4; and working papers 50/1/5 et seq.

Attached hereto are three affidavits of appropriate employees of FPL directed to the above listed papers and issues. I believe the affidavits are self-explanatory, and should provide sufficient additional information to support the confidentiality protection FPL seeks. I would note that FPL is narrowing substantially the confidentiality sought in connection with working paper 49-4, as shown in the included modified paper, in both redacted and highlighted forms, as well as in the enclosed modified Exhibit C, listing the confidential documents. If the Commission still finds any technical deficiencies in FPL's request for confidentiality, or requires any further explanation or documentation to support its request, please do not hesitate to contact me and I will be glad to provide it.

Sincerely,

William K. Hill, P.A.

Docket No. 001148-EI  
Dated: April 22, 2002

**Affidavit of Donald L. Babka**

STATE OF FLORIDA )  
 ) ss.:  
COUNTY OF DADE )

BEFORE ME, the undersigned authority, personally appeared Donald L. Babka, who, upon being duly sworn, deposes and says:

1. My name is Donald L. Babka. I am the Director, Regulatory and Tax Accounting, Florida Power & Light Company ("FPL"). I make this affidavit on my own personal knowledge.

2. In the Florida Public Service Commission's letter to William K. Hill, P.A., dated April 10, 2002, the Commission raises an issue as to the confidentiality of a 28-page document related to Merger Acquisition Costs. Upon further review, FPL agrees that the document is not confidential in its entirety, but rather only the final column, containing individuals' social security numbers, is confidential. This information is employee personnel information unrelated to compensation, duties, qualifications, or responsibilities, and thus should be held confidential pursuant to Section 366.093(3)(f), Florida Statutes.

Affiant says nothing further.

  
Donald Babka

I HEREBY CERTIFY that before me, an officer duly authorized in the State and County aforesaid to take acknowledgments, personally appeared Donald Babka, who is personally

known to me or who has produced \_\_\_\_\_ as identification, and he acknowledged before me that he executed the foregoing Affidavit as his free act and deed.

IN WITNESS WHEREOF, I have hereunto set my hand and seal in the State and County aforesaid on this 23 day of April, 2002.

**Affidavit of Richard C. Welty**

STATE OF FLORIDA )  
 ) ss.:  
COUNTY OF PALM BEACH )

BEFORE ME, the undersigned authority, personally appeared Richard C. Welty, who, upon being duly sworn, deposes and says:

1. My name is Richard C. Welty. I am the Manager, Nuclear Information Services, Florida Power & Light Company (“FPL”). I make this affidavit on my own personal knowledge.
2. The materials referenced in the Florida Public Service Commission letter, dated April 10, 2002, addressed to William K. Hill, P.A., described as information related to “employee compensation or duties,” should remain confidential. The information is not “employee” information but rather “contractor” information. The information is not related to compensation of FPL employees, but rather related to the costs of service provided to FPL by an outside contractor. Providing this information to the public would be a violation of our existing contract terms with NPS Energy Services Inc., as specified in paragraph 27.3 of the contract between that company and FPL:

Contractor and FPL have a proprietary interest in this Contract, which contains Confidential Material. Accordingly, this Contract shall not be disclosed in whole or in part to third Parties without the prior written consent of both Parties; provided however, that nothing contained in

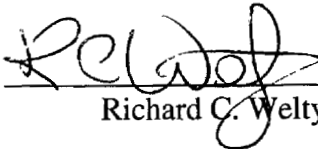

this Section 27.0 shall be construed to prevent either Party from enforcing any rights provided under this Contract.

The contract further goes on to state in paragraph 27.7 (in part):

. . . either Party will have the right to disclose this Contract or Confidential Material to any governmental authority or court having competent jurisdiction; provided, however, that prior to making any such disclosure, the disclosing Party will . . . (3) make reasonable efforts to secure confidential treatment of the Contract or Confidential Material to be disclosed.

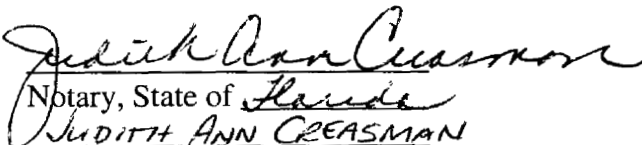

As such the items referenced in the letter should remain confidential, not based on Florida Statutes, Section 366.093(3)(f) but rather based on Section 366.093(3)(d) and (e).

Affiant says nothing more.

IN WITNESS WHEREOF, I have hereunto set my hand and seal in the State and County aforesaid on this 23 day of April, 2002.

In re: Review of the retail rates of \_\_\_\_\_ )      Docket No. 001148-EI  
Florida Power & Light Company. \_\_\_\_\_ )      Dated: April 23, 2002

**Affidavit of Joseph Stepenovitch**

STATE OF FLORIDA                    )  
  ) ss.:  
COUNTY OF PALM BEACH    )

BEFORE ME, the undersigned authority, personally appeared Joseph Stepenovitch, who, upon being duly sworn, deposes and says:

1. My name is Joseph Stepenovitch. I am the Director, Wholesale Operations, Florida Power & Light Company (“FPL”). I make this affidavit on my own personal knowledge.

2. The Florida Public Service Commission’s letter to William K. Hill, P.A., dated April 10, 2002, raises an issue as to FPL’s requested confidential classification for material contained in staff working papers 69-4/3-2 through 69-4/4, consisting of thirty-seven (37) pages, concerning certain hedge transactions. For the reasons set forth herein, FPL requests this information be held confidential pursuant to Section 366.093(3)(d) and (e), Florida Statutes, and exempt, accordingly, from disclosure pursuant to Section 119.07(1), Florida Statutes.

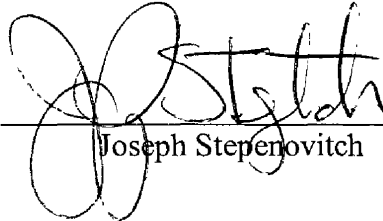

3. FPL, in meeting the fuel demands of its electric generation facilities, is a very large consumer of natural gas. FPL utilizes hedge transactions primarily to mitigate the risk of price fluctuations with respect to these natural gas purchases. Significantly, it is FPL’s ratepayers who benefit from these hedging transactions insofar the price certainty resulting from same operates, in large measure, both to insulate them from the derivative effects of erratic

natural gas spot market price fluctuations and ensure them that their rates remain fair, just and reasonable.

4. FPL, when entering into hedging transactions with its counterparties, does so with the expectation that the commercial terms of same will remain confidential. From FPL's perspective, the negotiation of these commercial terms is largely dependent on pricing scenarios derived from its proprietary financial models. Were the commercial terms of its hedging transactions to be placed in the public domain, such knowledge would very likely be used by FPL's hedging counterparties to reduce the very pricing advantage FPL seeks to achieve. If this were to occur, FPL's efforts to secure the lowest, most competitive natural gas pricing terms, would be impaired. Put differently, FPL's ability to contract for competitive natural gas fuel supplies on terms most favorable to its ratepayers would be compromised.

5. For the above and foregoing reasons, the commercial terms of the hedging transactions contained in the referenced staff working papers ought to be held confidential pursuant to Section 366.093(3)(d) and (e), Florida Statutes, and exempt, accordingly, from disclosure pursuant to Section 119.07(1), Florida Statutes.

Affiant says nothing further.

IN WITNESS WHEREOF, I have hereunto set my hand and seal in the State and County
