Re: **Docket No. 020395-TL**  
**Petition for Expedited Review of Growth Code Denials by the North  
American Numbering Administration for the Miami and Gainesville  
Exchanges (West Miami and Gainesville-Miami-DS1)**

Dear Ms. Bayó:

Enclosed is an original and fifteen copies of BellSouth Telecommunications, Inc.'s Petition for Expedited Review of NXX Code Denials, which we ask that you file in the caption new docket.

A copy of this letter is enclosed. Please mark it to indicate that the original was filed and return a copy to me. Copies have been served to the parties shown on the attached certificate of service.

Sincerely,

  
James Meza III  
(28)

In re: Petition for Expedited Review of Growth ) Docket No.  
Code Denial by the North American Numbering )  
Administration for the Miami and Gainesville )  
Exchanges (West Miami and Gainesville-Main-DS1) ) Filed: May 2, 2002  
\_\_\_\_\_ )

**PETITION FOR EXPEDITED REVIEW OF NXX CODE DENIALS**

BellSouth Telecommunications, Inc. ("BellSouth"), pursuant to 47 C.F.R. § 52.15(g)(iv), Federal Communications Commission ("FCC") Order FCC 00-104, and Florida Public Service Commission ("Commission") Order No. PSC-01-1873-PCO-TL, petitions the Commission to review the North American Plan Administrator's ("NANPA") denial of BellSouth's request for additional numbering resources in the Miami and Gainesville exchanges. In support of this petition, BellSouth states:

**PARTIES**

1. BellSouth is a corporation organized and formed under the laws of the State of Georgia and an incumbent local exchange company ("ILEC") regulated by the Commission and authorized to provide local exchange telecommunications and intraLATA toll telecommunications in the State of Florida.

2. NANPA is an independent non-governmental entity, which is responsible for administering and managing the North American Numbering Plan ("NANP"). See 47 C.F.R. § 52.13(a),(b).

## JURISDICTION

3. The Commission has jurisdiction of this matter pursuant to 47 C.F.R. § 52.15(g)(iv). This provision provides that a carrier may challenge NANPA's decision to deny numbering resources to the appropriate state regulatory commission.

## BACKGROUND AND REQUEST FOR RELIEF

4. On March 31, 2000, the FCC issued Order No. 00-104 ("FCC 00-104" or the "Order") in the Numbering Resource Optimization docket (Docket No. 99-200). The goal of FCC 00-104 was to implement uniform standards governing requests for telephone numbering resources in order to increase efficiency in the use of telephone numbers and to avoid further exhaustion of telephone numbers under the NANP.

5. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier's need for numbering resources by requiring rate center based utilization rates to be reported to NANPA. FCC Order at § 105. The FCC further required that, to qualify for access to new numbering resources, applicants must establish that its existing numbering inventory within the rate center will be exhausted within six months of the application. Prior to this ruling, the industry and NANPA used the Central Office Code Assignment Guidelines to make code assignments. Under these guidelines, in order to obtain additional numbering resources, the applicant's existing number inventory within the applicant's serving switch had to exhaust within a specific months-to-exhaust ("MTE") of the code application or the carrier had to prove that it was unable to

meet a specific customer's request with its current inventory of numbers. The FCC stated that the shift to a "rate center" basis for determining the need for new numbering resources was intended to "more accurately reflect how numbering resources are assigned" and to allow "carriers to obtain numbering resources in response to specific customer demands." FCC Order at ¶ 105.

6. As a result of FCC 00-104, the FCC adopted 47 C.F.R. § 52.15 (g)(iii) and (iv) which provides:

All service providers shall maintain no more than a six-month inventory of telephone numbers in each rate center or service area in which it provides telecommunications service.

The NANPA shall withhold numbering resources from any U.S. carrier that fails to comply with the reporting and numbering resources application requirements established in this part. The NANPA shall not issue numbering resources to a carrier without an Operating Company Number (OCN). The NANPA must notify the carrier in writing of its decision to withhold numbering resources within ten (10) days of receiving a request for numbering resources. The carrier may challenge the NANPA's decision to the appropriate state regulatory commission. The state regulatory commission may affirm or overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein.

7. On December 29, 2000, the FCC also released FCC 00-429, which reaffirmed FCC 00-104 and also required carriers to meet a 60 percent initial utilization threshold. FCC 00-429 at ¶ 26. Based on these two FCC orders, carriers are now required to meet a six MTE criteria as well as a utilization threshold on a rate center/exchange basis in order to be granted additional

numbering resources. Id. at ¶ 29. On December 28, 2001, the FCC released FCC 01-362, which reaffirmed the MTE and utilization criteria as well as implementing a safety valve when carriers are unable to get additional numbering resources.

8. Since the beginning of this year, BellSouth has submitted several requests for additional numbering resources to NANPA and NeuStar, the pooling administrator, for assignment of additional numbering resources to meet the demands of its customers in several Florida exchanges, including Daytona Beach, DeLand, Ft. Lauderdale, Gainesville, Jacksonville, Miami, North Dade, Orlando, Stuart, and West Palm.

9. BellSouth has completed these applications in accordance with Industry Numbering Committee's (INC's) and/or NANPA's guidelines and filled out the necessary Months-to-Exhaust Certification Worksheets as required.

10. BellSouth has utilized mechanisms such as number pooling to manage its numbering resources in the most efficient manner. However, as the Commission is well aware, in some circumstances, BellSouth has been required to petition the Commission for relief.

11. On May 25, 2001, BellSouth petitioned the Commission to develop an expedited process to review NANPA's denial of a request for additional numbering resources to minimize the delay carrier's experience in attempting to challenge a denial by NANPA. As a result of the BellSouth's Petition and the Commission's efforts to make numbering resources available to carriers, the

Commission issued Order No. PSC 04-1873-PCO-FL setting forth an expedited code denial process.

12. As for this request for additional numbering resources for the Miami and Gainesville exchanges, BellSouth states the following:

**MIAMI**

13. The Miami exchange consists of twenty-four (24) central offices and twenty-eight (28) switching entities that utilize numbering resources: Airport (MIAMFLAPDS0), Alhambra (MIAMFLAEDS0 and MIAMFLAERS0), Allapattah (MIAMFLAL63E), Bayshore (MIAMFLBA85E), Miami Beach (MIAMFLBRDS0), Biscayne (MIAMFLBCDS0), Canal (MIAMFLCADS0), Dadeland Blvd (MIAMFLDBRS1), Flagler (MIAMFLFLDS0), Grande (MIAMFLGRDS0 and MIAMFLGRDS1), Hialeah (MIAMFLHLDS0), Indian Creek (MIAMFLICDS0), Key Biscayne (MIAMFLKEDS0), Metro (MIAMFLMERS0 and MIAMFLME32E), Miami Shores (MIAMFLSH75E), North Miami (MIAMFLNMDS0), Northside (MIAMFLNSDS0), Opa Locka (MIAMFLOL68E), Palmetto (MIAMFLPLDS0 and MIAMFLPLRS0), Poinciana (MIAMFLPBDS0), Red Road (MIAMFLRRDS0), Silver Oaks (MIAMFLSODS0), West Dade (MIAMFLWDDS0), and West Miami (MIAMFLWMDS0).

14. On April 11, 2002, BellSouth requested additional numbering resources from NANPA for the West Miami switch. See Attachment 1. Specifically, BellSouth requested an NXX to provide 5,000 consecutive DID numbers in order to serve a specific customer served by the West Miami switch.

The customer needs consecutive blocks that do not begin with a 0, 1 or 9 to meet their dialing parameters.

15. At the time of the code request, the Miami exchange had a MTE of 11.75<sup>1</sup> and a utilization of 74%, while the MTE for the West Miami (MIAMFLWMD50) switch was -137.96<sup>2</sup>.

16. On April 23, 2002, NANPA denied BellSouth's request for additional numbering resources because BellSouth had not met the rate center based MTE criteria, notwithstanding the fact that BellSouth's is unable to provide the numbering resources requested by the specific customer. See Attachment 2. Pursuant to Commission Order No. PSC-01-1973-PCO-TL, attached to this Petition is the MTE and utilization rate for each switch in the Miami exchange and the customer contact information. See Attachment 3.

17. BellSouth's request for additional numbering resources to provide the numbers requested above in the Miami exchange would not materially impact exhaustion of available numbers in the 407/321 area code.

## **GAINESVILLE**

18. The Gainesville exchange consists of two (2) central offices and three (3) switching entities that utilize numbering resources: Gainesville-Main

---

<sup>1</sup> The Part 1 filed showed a MTE of 31.91. After denial, BellSouth determined a calculation error was made in the MTE and the actual MTE for the Miami exchange at the time was 11.74. Since the MTE was greater than 6, BellSouth filed the appeal instead of reapplying to NANPA.

<sup>2</sup> Since the Average Growth per Month was negative for this switch, the MTE is shown on Attachment 3 as 999 which is what BellSouth inputs when the MTE is negative. If the MTE calculation is done, the MTE would be shown as -137.96, which is not a reasonable description due to the nature of the calculation.

DS0 (GSVLFLMADS0), Gainesville-Main DS1 (GSVLFLMADS1), and Northwest (GSVLFLNW33E)

19. On April 11, 2002, BellSouth requested additional numbering resources from NANPA for the Gainesville-Main DS1 (GSVLFLMADS1) switch. See Attachment 4. Specifically, BellSouth requested an NXX to provide a dedicated NXX for consecutive DID numbers in order to serve a specific customer served by the Gainesville-Main DS1 switch. The customer needs a dedicated NXX in the format of NX3 to meet its dialing parameters.

20. At the time of the code request, the Gainesville exchange had a MTE of 13.00 and a utilization of 70%, while the MTE for the Gainesville-Main DS1 (GSVLFLMADS1) switch was 70.11.

21. On April 23, 2002, NANPA denied BellSouth's request for additional numbering resources because BellSouth had not met the rate center based MTE criteria, notwithstanding the fact that BellSouth's is unable to provide the numbering resources requested by the specific customer. See Attachment 5. Pursuant to Commission Order No. PSC-01-1973-PCO-TL, attached to this Petition is the MTE and utilization rate for each switch in the Gainesville exchange and the customer contact information. See Attachment 6.

22. BellSouth's request for additional numbering resources to provide the numbers requested above in the Gainesville exchange would not materially impact exhaustion of available numbers in the 352 area code.

23. As discussed above, both the FCC Rules and NANPA's Central Office Code Guidelines provide that state regulatory authorities have the power

and authority to review NANPA's decision to deny a request for numbering resources. See 47 C.F.R. § 52.15(g)(3)(iv); § 13.0 of the NANPA Central Office Code (NXX) Guidelines.

24. Under earlier MTE procedures used by NANPA, waivers or exceptions were granted when customer hardships could be demonstrated or when the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NANPA looks at the number of MTE and utilization for the entire rate center without any exceptions. The current process is arbitrary and results in (1) decisions that are not in the public interest and welfare of consumers in the State of Florida; and (2) decisions that do not necessarily promote the efficient use of telephone numbers.

25. Unfortunately, BellSouth's inability to obtain numbering resources in the above switch, which is necessary to meet its customers' numbering demands in multi-switch rate centers, will not be the last time BellSouth experiences this problem. BellSouth has a total of 95 rate centers in Florida with 31 of these being multi-switch rate centers. Some of the switches within these multi-switch rate centers are already within or near the six MTE. BellSouth, however, believes that it will be unable to meet the six MTE threshold at the rate center level in all of these multi-switch rate centers, thereby jeopardizing its ability to adequately comply with its carrier of last resort obligations.

26. BellSouth requests that the Commission's reverse NANPA's decision to withhold numbering resources from BellSouth on the following grounds:

(a) NANPA's denial of numbering resources to BellSouth interferes with BellSouth's ability to serve its customers within the State of Florida.

(b) The MTE at the rate center level requirement is discriminatory against the incumbent LEC, since the ILEC is typically the only local service provider with multiple switches in a rate center. The ILEC deploys multiple switches in a rate center in order to meet customer demand for telephone service. The new FCC rules for obtaining numbering resources both penalizes and discriminates against the ILECs for deploying multiple switches. BellSouth believes that it is patently unfair to require that the ILEC only get six (6) MTE in all the switches it has deployed in a rate center, when the ALECs, which have recently entered the local service market, have to meet the MTE requirement in only the single switch that they have deployed to serve their customers in a single rate center or even multiple rate centers.

(c) As a result of NANPA's denial of BellSouth's request for additional numbering resources, BellSouth will be unable to provide telecommunications services to its customers as required under Florida law.

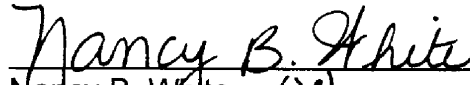

WHEREFORE, BellSouth requests:

1. The Commission review the decision of the NANPA to deny BellSouth's request for additional numbering resources for the Miami (West Miami) and Gainesville (Main -DS1) exchanges; and

2. The Commission direct NANPA to provide the requested codes for the Miami and Gainesville exchanges as discussed above.

Respectfully submitted this 2nd day of May, 2002

# Central Office Code (NXX) Assignment Request - Part1

June 19, 2000

Code Request Tracking Number: 352-149918

Type of Application:  **New**  Change<sup>1</sup>  Delete

### 1.1 Contact Information:

Code Applicant:

Company/Entity Name: BELLSOUTH TELECOMM INC DBA SOUTHERN BELL TEL & TEL

Headquarters Address: 675 W PEACHTREE ST NW

Headquarter City, State, Zip: ATLANTA ga 30375

1 Contact Name: [REDACTED]

2 Address: [REDACTED]

3 City, State, Zip: [REDACTED]

4 Phone: [REDACTED] FAX: [REDACTED] E-Mail: [REDACTED]@bridge.bellsouth.com

5 [REDACTED]

Name: Terah Adger

Address: 1800 Sutter Street

City, State, Zip: Concord CA 94520

Phone: 9253638705 Fax: 9253638714

### 1.2:

NPA: 352 NXX:      LATA: 45402 OCN:<sup>3</sup> 9417 Parent Company's OCN(s): 9400

Switching Identification (Switching Entity/POD):<sup>4</sup> GSVLFMADS1

Locality/City/Wire Center: GAINESVL Rate Center:<sup>5</sup> GAINESVL

Homing Tandem Operating Co.:<sup>6</sup> BST Homing Tandem CLLI:<sup>7</sup> GSVLFMA01T

Additional Information: REQUEST FOR DEDICATED CODE FOR  
[REDACTED] CUSTOMER REQUEST  
NXX OF [REDACTED] FOR [REDACTED]

6  
7

1.3 Dates: Date of Application: April 11, 2002 Requested Effective Date:<sup>8,9</sup> June 16, 2002

### 1.4 Type of company/entity requesting the code:

a) RBOC (LEC, IC, CMRS, Other)

b) Type of Service: Wireline (e.g., Cellular - Type 2)

c) Code Assignment Preference (Optional) 623, 863

d) Codes that are undesirable, if any 999, 666

e) Please Explain Type of Change:     

14

1.5 Type of Request (Initial, Growth, etc.): Growth

If an initial code, attach (1) evidence of certification and (2) proof of ability to place code in service within 60 days.

If a growth code, attach months to exhaust worksheet.

Pool Indicator:<sup>10</sup> No

Change/Disconnect List: \_\_\_\_\_

1.6 NPA Jeopardy Criteria Apply: Yes: \_\_\_\_\_ No: x

1.7 Code Request for new service (Explain): \_\_\_\_\_

1.8 Part 2 is attached \_\_\_\_\_ Part 2 is not attached Yes for RDBS & BRIDS<sup>11,12</sup>

I hereby certify that the above information requesting an NXX code is true and accurate to the best of my knowledge and that this application has been prepared in accordance with the Central Office Code (NXX) Assignment Guidelines posted to the ATIS Web Site

(<http://www.atis.org/atls/clc/inc/incdocs.htm>) as of the date of this application<sup>13</sup>:

[Redacted Signature]

[Redacted Title]

April 11, 2002

Signature of Code Applicant<sup>14</sup>

Title

Date

1. Identify type and reason for change(s) in Section 1.4(e).
2. A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.
3. Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (973-884-8355) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the Traffic Routing Administration (TRA) on 732-699-6700.
4. This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character COMMON LANGUAGE Location Identification (CLLI) of the applicant's switch or POI.
5. Rate Center name must be a tariffed Rate Center associated with toll billing.
6. Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.
7. This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.
8. Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.
9. Requests for code assignment should not be made more than six months prior to the requested effective date.
10. The Pool Administrator will indicate if the NXX being requested will be used for thousands block number pooling.
11. Applicant is not required to submit Part 2 of the code request form if it is doing its own RDBS and BRIDS entries, or if the applicant has arranged for a third party to input the Part 2 forms data on its behalf.

15

# Months To Exhaust Certification Worksheet - TN Level<sup>1</sup>

(Worksheet to be used for Requests for Additional Codes for Growth)

Code Request Tracking Number: 352-149918

Date: April 11, 2002 Company/Entity Name: BELLSOUTH TELECOMM INC DBA SOUTHERN BELL TEL& TEL

Switching Entity/Point of Interconnection (CLLD): GSVLFMADS1 Rate Center: GAINESVL

Total Number of NXXs: 33

1  
2  
3  
Signature of Authorized Representative of Code Applicant: [Redacted]  
Title: [Redacted] Telephone No.: [Redacted] FAX No.: [Redacted]

4 A. Telephone Numbers (TNs) Available For Assignment  
(See Glossary<sup>3</sup>): [Redacted]

Month #1	Month #2	Month #3	Month #4	Month #5	Month #6	Month #7	Month #8	Month #9	Month #10	Month #11	Month #12
----------	----------	----------	----------	----------	----------	----------	----------	----------	-----------	-----------	-----------

5 B. Previous 6-month growth history<sup>4</sup>: [Redacted]

6 C. Forecast - Next months 1-12<sup>5</sup>: [Redacted]

7 D. Average Monthly Growth Rate (From Part C above): [Redacted]

E. Months to Exhaust<sup>6</sup> =  $\frac{\text{Telephone Numbers (TNs) Available for Assignment (A)}}{\text{Average Monthly Growth Rate (D)}}$  = 13.598

F. Utilization Level<sup>7</sup> =  $\frac{\text{Telephone Numbers (TNs) Assigned}}{\text{Total Numbering Resources in Applicant's Inventory}} \times 100$  = 70.0 %
