Re: Aloha Utilities, Inc.  
Wastewater Service Availability Charges  
Our File No. 26038.01

Dear Rosanne:

You have asked that I briefly outline the circumstances surrounding the mistake in billing the new service availability charge approved by Commission Order No. PSC-01-0326-FOF-SU. Through a mistake that occurred after issuance of that Order on my part, one of the Utility employee's part and to some extent, on the part of the staff in approving a notice and tariffs that did not include these required charges, no tariffs or customer notice were issued, prepared, submitted or approved after the Commission's Order in Docket No. 991643-SU became final after reconsideration. The Order did not specifically require any separate notice of this change. No one noticed this mistake until I was contacted by a member of the Commission staff on March 7, 2002 and was informed that the tariff was not on file. The Commission Staff Attorney, myself and the President of the Utility all assumed, once informed of this error, that the charge had been imposed after the Order became final, but that the Utility had simply failed to file a tariff sheet or to submit a Customer Notice on the charge. Immediately after notification of the error with the tariff not being on file, I submitted with a letter dated March 8, 2002, the appropriate tariff reflecting the new charge. The Commission staff returned the approved tariff on March 26, 2002 with an effective date of May 23, 2001 as would be appropriate given the estimated date the Order would have become final and the tariffs could have been submitted.

1. Circumstances Leading to Current Situation - It came to the attention of the Utility's President on approximately April 12, 2002 that the Utility had not been charging the proper service availability charge. The President then gave instructions to his staff to immediately begin charging the appropriate charge and he began investigating what to do about the situation. He sent a notice to each of the developers who had outstanding "arrearages" for connections made between May 23, 2001 and the date of the discovery of the mistake in not imposing that charge. Soon after the notice was sent, the Commission began hearing from developers and the Utility began trying to work with developers and the staff to find a solution to this problem. The Utility is now and has been since April 12, 2002, charging the appropriate connection fee to

Rosanne Gervasi, Esq.  
May 13, 2002  
Page 2

all new connections that have occurred since that date.

2. Letters to Developer - Beginning on April 16, 2002, within four days of learning of the mistake in failure to properly charge the new service availability charge, the President of Aloha had his staff send out the attached first notices to all current developers and builders informing them of the increase in service availability charges applicable to all future connections. Soon thereafter, for all of the developers who would have arrearages in such service availability charges related to connections made between May 23, 2001 and the date of his letter, a second notice was forwarded to those affected developers outlining the amount of potential arrearages and suggesting that they contact the Utility immediately to discuss appropriate payment.

Attached hereto are copies of each of the two letters. The shorter one was sent on April 16, 2002 to those persons who had outstanding prepaid connections, which would be assessed the higher rate upon attempting to connect any of their homesites. The longer one is the one that was sent on April 22, 2002 to the persons with potential arrearage charges.

3. Connections - Attached hereto is a list by month of connections made between May 23, 2001 and April 12, 2002. There are a total of 409. 407 are 5/8 X 3/4" meters and the remaining 2 are 1" general service meters. All of these were made at the lower connection fee. Since April 12, 2002, all connections actually made to the system, have been made at the new required connection fee.

Should you have any further questions, please let me know.

Sincerely,

ROSE, SUNDBSTROM & BENTLEY

  
F. Marshall Deterding

Re: Heritage Springs  
Additional Fees

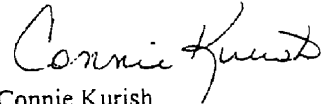

To Whom It May Concern:

As per the attached wastewater tariff effective May 23, 2001, the additional sewage plant capacity charge (impact fee) must be paid prior to commencement of water and/or sewer services. The prior amount paid was \$206.75, which leaves a balance of \$1,443.25

We apologize for any inconvenience this may have caused. Should you have any further questions, please feel free to contact our office.

VIA CERTIFIED RETURN RECEIPT:  
7099-3400-0018-4330-7707

RE: Thousand Oaks Multi-family Development-Wastewater Plant Capacity Charge

Dear Mr. Horne:

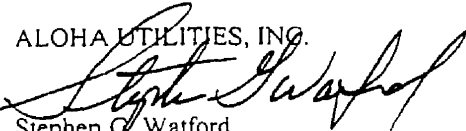

Effective May 23, 2001, Aloha Utilities, Inc. was authorized by the Florida Public Service Commission to increase its wastewater service availability charge from \$206.75 to \$1,650.00, a difference of \$1,443.25 per ERC. All connections from that day forward are required to be assessed the new fee. Unfortunately, through a mistake on the part of the Utility, several developers/builders were not assessed the additional fee, either as to their connections made since that time, or assessed for the increase for future connections which have been reserved. Your Company has connected 25 connections since May 23, 2001. As such, we are required by our tariff, Public Service Commission Orders, and by Florida law, to assess you at this increased rate. While the Utility mistakenly failed to charge you for this increase previously, we are authorized both under our Developer Agreement with you and under Public Service Commission Rules to back bill in the case of such a mistake.

The total amount that is due to Aloha from your Company for prior connections is \$36,081.25. For reservation of capacity and connections not yet made, the additional amount owed is \$168,860.25 (117 connections X \$1,443.25 increased charge) per additional connection.

We apologize for this mistake and we will be glad to work with you on the method of repayment. However, we must receive all of these overdue monies for prior connections in order to comply with PSC requirements.

We need to hear from you shortly or we will have to consider alternative measures in order to collect these monies. If you have any questions, please let me know. Again, we appreciate your cooperation in resolving this matter quickly.

Sincerely,

ALOHA UTILITIES, INC.

RE: Briar Patch Phase I Development-Wastewater Plant Capacity Charge

Dear Mr. Ryan:

Effective May 23, 2001, Aloha Utilities, Inc. was authorized by the Florida Public Service Commission to increase its wastewater service availability charge from \$206.75 to \$1,650.00, a difference of \$1,443.25 per ERC. All connections from that day forward are required to be assessed the new fee. Unfortunately, through a mistake on the part of the Utility, several developers/builders were not assessed the additional fee, either as to their connections made since that time, or assessed for the increase for future connections which have been reserved. Your Company has connected 22 connections since May 23, 2001. As such, we are required by our tariff, Public Service Commission Orders, and by Florida law, to assess you at this increased rate. While the Utility mistakenly failed to charge you for this increase previously, we are authorized both under our Developer Agreement with you and under Public Service Commission Rules to back bill in the case of such a mistake.

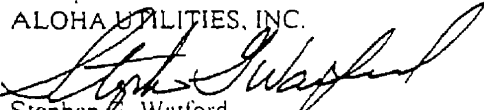

The total amount that is due to Aloha from your Company for prior connections is \$31,751.50. For reservation of capacity and connections not yet made, the additional amount owed is \$76,492.25 (53 connections X \$1,443.25 increased charge) per additional connection.

We apologize for this mistake and we will be glad to work with you on the method of repayment. However, we must receive all of these overdue monies for prior connections in order to comply with PSC requirements.

We need to hear from you shortly or we will have to consider alternative measures in order to collect these monies. If you have any questions, please let me know. Again, we appreciate your cooperation in resolving this matter quickly.

Dear Mr. Aldridge:

Effective May 23, 2001, Aloha Utilities, Inc. was authorized by the Florida Public Service Commission to increase its wastewater service availability charge from \$206.75 to \$1,650.00, a difference of \$1,443.25 per ERC. All connections from that day forward are required to be assessed the new fee. Unfortunately, through a mistake on the part of the Utility, several developers/builders were not assessed the additional fee, either as to their connections made since that time, or assessed for the increase for future connections which have been reserved. Your Company has connected 1 connections since May 23, 2001. As such, we are required by our tariff, Public Service Commission Orders, and by Florida law, to assess you at this increased rate. While the Utility mistakenly failed to charge you for this increase previously, we are authorized both under our Developer Agreement with you and under Public Service Commission Rules to back bill in the case of such a mistake.

The total amount that is due to Aloha from your Company for prior connections is \$1443.25. For reservation of capacity and connections not yet made, the additional amount owed is \$0 (0 connections X \$1,443.25 increased charge) per additional connection.

We apologize for this mistake and we will be glad to work with you on the method of repayment. However, we must receive all of these overdue monies for prior connections in order to comply with PSC requirements.

We need to hear from you shortly or we will have to consider alternative measures in order to collect these monies. If you have any questions, please let me know. Again, we appreciate your cooperation in resolving this matter quickly.

Sincerely,

ALOHA UTILITIES, INC.

RE: Thousand Oaks Multi-family Development-Wastewater Plant Capacity Charge

Dear Ms. Orsi:

Effective May 23, 2001, Aloha Utilities, Inc. was authorized by the Florida Public Service Commission to increase its wastewater service availability charge from \$206.75 to \$1,650.00, a difference of \$1,443.25 per ERC. All connections from that day forward are required to be assessed the new fee. Unfortunately, through a mistake on the part of the Utility, several developers/builders were not assessed the additional fee, either as to their connections made since that time, or assessed for the increase for future connections which have been reserved. Your Company has connected 25 connections since May 23, 2001. As such, we are required by our tariff, Public Service Commission Orders, and by Florida law, to assess you at this increased rate. While the Utility mistakenly failed to charge you for this increase previously, we are authorized both under our Developer Agreement with you and under Public Service Commission Rules to back bill in the case of such a mistake.

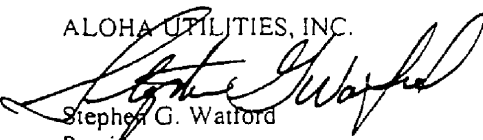

The total amount that is due to Aloha from your Company for prior connections is \$36,081.25. For reservation of capacity and connections not yet made, the additional amount owed is \$168,860.25 (117 connections X \$1,443.25 increased charge) per additional connection.

We apologize for this mistake and we will be glad to work with you on the method of repayment. However, we must receive all of these overdue monies for prior connections in order to comply with PSC requirements.

We need to hear from you shortly or we will have to consider alternative measures in order to collect these monies. If you have any questions, please let me know. Again, we appreciate your cooperation in resolving this matter quickly.

RE: Thousand Oaks 2-5 Development-Wastewater Plant Capacity Charge

Dear Ms. Orsi:

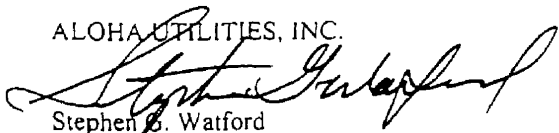

Effective May 23, 2001, Aloha Utilities, Inc. was authorized by the Florida Public Service Commission to increase its wastewater service availability charge from \$206.75 to \$1,650.00, a difference of \$1,443.25 per ERC. All connections from that day forward are required to be assessed the new fee. Unfortunately, through a mistake on the part of the Utility, several developers/builders were not assessed the additional fee, either as to their connections made since that time, or assessed for the increase for future connections which have been reserved. Your Company has connected 86 connections since May 23, 2001. As such, we are required by our tariff, Public Service Commission Orders, and by Florida law, to assess you at this increased rate. While the Utility mistakenly failed to charge you for this increase previously, we are authorized both under our Developer Agreement with you and under Public Service Commission Rules to back bill in the case of such a mistake.

The total amount that is due to Aloha from your Company for prior connections is \$124,119.50. For reservation of capacity and connections not yet made, the additional amount owed is \$0.00 (0 connections X \$1,443.25 increased charge) per additional connection.

We apologize for this mistake and we will be glad to work with you on the method of repayment. However, we must receive all of these overdue monies for prior connections in order to comply with PSC requirements.

We need to hear from you shortly or we will have to consider alternative measures in order to collect these monies. If you have any questions, please let me know. Again, we appreciate your cooperation in resolving this matter quickly
