ISSUE 4:

The flow-through task force is ineffective. (See AT&T handout, Ordering section, at page 1; Network Handout, at page 9, Transcript at page 66).

RESPONSE:

This has been a constant, yet unfounded, complaint by AT&T since the beginning of the task force a little over a year ago. This complaint has no validity.

The Commission noted in GALA, ¶ 146 – that, in the course of the year-plus that the task force has existed, BellSouth and the ALECs have identified 18 flow-through improvement features, implemented eight in February and March 2002, and there are 10 more targeted for Release 10.5 in May³¹. There are at least 3 more flow-through impacting features targeted for Release 10.6. Additionally, there are other change requests within the CCP that, upon prioritization and implementation, will improve flow-through. As the FCC noted in GALA, ¶ 146, the FCC “will monitor BellSouth's compliance with its commitment to improve its flow-through performance.” BellSouth welcomes that opportunity.

³¹ All the FCC has been notified, Release 10.5 has been delayed from May 18 until June 1, due to defects found by BellSouth during testing.
