JUN 17 PM 4:47  
COMMISSION  
CLERK

**Re: 960786A-TL (Section 271)**

Dear Ms. Bayó:

Enclosed is the original and fifteen copies of BellSouth Telecommunications, Inc.'s Supplemental Affidavits of Elizabeth A. Stockdale and W. Keith Milner which we ask that you file in the captioned docket.

A copy of this letter is enclosed. Please mark it to indicate that the original was filed and return the copy to me. Copies have been served to the parties by Federal Express as shown on the attached Certificate of Service.

Sincerely,

*Lisa S. Foshee*  
Lisa S. Foshee (LAF)

DOCKET NO. 960786-TL

SUPPLEMENTAL AFFIDAVIT OF ELIZABETH A. STOCKDALE  
ON BEHALF OF BELL SOUTH TELECOMMUNICATIONS, INC.

I, Elizabeth A. Stockdale, being of lawful age and duly sworn, do hereby depose and state as follows:

**I. INTRODUCTION AND PURPOSE OF AFFIDAVIT**

1. I am employed by BellSouth Telecommunications, Inc. (BellSouth) as Manager-Competitive Analysis in the BellSouth Federal Regulatory Department. My business address is 675 West Peachtree Street, Atlanta, Georgia 30375.
2. I began my career with BellSouth in 1989 as a paralegal in the Washington, D.C. office. In 1991, I transferred to the BellSouth Corporation Legal Department in Atlanta, Georgia. From 1991 to 1993, I worked on antitrust matters. From 1993 to 1997, I worked on Federal Regulatory issues including universal service, price regulation, interstate access and various Telecommunications Act of 1996 (the Act"<sup>1</sup>) implementation issues. In 1997, I joined the Regulatory and External Affairs organization as Manager, Legislative Affairs. In that position, my duties involved reviewing and analyzing state and federal legislation to determine, among other things, the potential financial impact on BellSouth. I began working in my present position in October 2001. I have a Bachelor of Arts degree in Political Science from Washington

---

<sup>1</sup> The Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996).

College in Chestertown, Maryland. I am pursuing a Masters Degree in Public Policy with emphasis on Telecommunications Policy from the Georgia Institute of Technology in Atlanta, Georgia.

3. This Affidavit supplements the Affidavit of Victor K. Wakeling, (“Wakeling Affidavit”) filed with this Commission on May 31, 2001 in the above referenced proceeding.<sup>2</sup> The purpose of this affidavit is to provide recent data to show that the local exchange market in Florida is irreversibly open to competition, that competition is economically viable, and that it serves the public interest.
4. The exhibits provided with the public version of this Supplemental Affidavit contain public information relating to local competition. Public exhibits ES-1 and ES-2 update VW-1 and VW-2, respectively of the Wakeling Affidavit. Both exhibits contain recent information on Alternative Local Exchange Carriers (“ALECs”) operating in Florida. Public exhibit ES-2 lists competitors with signed interconnection agreements with BellSouth in Florida. Three exhibits, ES-3 through ES-5, contain confidential and sensitive competitive proprietary information regarding individual ALECs operating in Florida. These exhibits update VW-5- through VW-8 and VW-10.<sup>3</sup> In the public filing, these exhibits are filed with the confidential information redacted. In addition, the complete exhibits containing confidential information are being filed under seal.
5. The local market in BellSouth’s service area in Florida is irreversibly open to competition. Moreover, as the evidence below shows, local competition in BellSouth’s

---

<sup>2</sup> Portions of the Wakeling Affidavit were subsequently amended. *See* Rebuttal Testimony of Cynthia K. Cox, Docket No. 960786A-TL, filed August 20m 2001 and Surrebuttal Testimony filed October 3, 2001.

<sup>3</sup> Exhibit ES-3 combines into one exhibit the information presented in Exhibits VW-5 and VW-7 of the Wakeling Affidavit. ES-4 combines VW-6 and VW-8.

Florida service area continues to increase despite the recent economic downturn in the telecommunications sector.

- As of April 2002, ALECs with forty or more lines in Florida serve between 16.1% (Method 2) and 16.9% (Method 1) of the local access lines in BellSouth's service area. *See* Exhibits ES-2 and ES-3.
- Since February 2001, the number of ALEC lines serving the residential customer market in Florida has increased over 100%. *See* Exhibits ES-3, ES-4 and the Wakeling Affidavit at Exhibits VW-5 through VW-8.
- Between February 2001 and April 2002 the quantity of loop-port combinations ("UNE-Ps") increased from 56,032 to 292069, an increase of over 400%. *See* Ibid.
- Line share estimates produced by both Method One and Method Two show that over the last year ALEC facilities-based competition in Florida has continued to grow in both the residential and business markets. Despite the sluggish economy, facilities-based business lines have increased as much as 70% since February 2001. Residential lines have increased by over 150%. *See* Ibid.

## II. LOCAL COMPETITION IN FLORIDA

### A. BellSouth's Estimates of Local Competition in Florida

6. Local competition continues to thrive in BellSouth's Florida service areas. ALECs are taking advantage of all three modes of entry --- using their own facilities, unbundled network elements (including UNE Loops and UNE-Ps) and resale. Utilizing these three entry modes, ALECs offer a full range of residential and business services including complete packages of voice and data services across BellSouth's Florida service area.
7. BellSouth uses two methods for estimating local lines that ALECs serve in BellSouth's service area.<sup>4</sup> In Method One, BellSouth relies on data from various internal sources to display the number of ALEC E911 Listings, UNEs (including UNE loops and UNE-Ps)

---

<sup>4</sup> See Wakeling Affidavit at ¶ 10 and VW-9.

and interconnection trunks (“IC Trunks”).<sup>5</sup> These three categories are then used to provide an estimate of ALEC lines in service.

8. As stated in the Wakeling Affidavit, BellSouth’s Method Two uses the same methodology as one approach presented by SBC Communications, Inc. in its 271 filings with the FCC.<sup>6</sup> This methodology has been endorsed by the Department of Justice (“DOJ”) and most recently relied upon by the Federal Communications Commission (“FCC”) in assessing the state of competition in BellSouth’s Georgia and Louisiana service area.<sup>7</sup> This estimate is based on just two categories – facilities-based ALECs’ E911 Listings and UNE-Ps<sup>8</sup>.

---

<sup>5</sup> Ibid.

<sup>6</sup> See, Joint Affidavit of J. Gary Smith and Mark Johnson, Application of SBC Communications, Inc. for Provision of In-Region, InterLATA Services in Kansas and Oklahoma, Tables 2 and 3 at pp. 6-7. See also Affidavits of J. Gary Smith for Arkansas and David R. Tebeau for Missouri, Joint Application by SBC Communications, Inc. for Provision of In-Region, InterLATA Services in Arkansas and Missouri.

<sup>7</sup> Joint Application by BellSouth Corporation, BellSouth Telecommunications, Inc., and BellSouth Long Distance for Provision of In-Region, InterLATA Services in Georgia and Louisiana, CC Docket No. 02-35 (released May 15, 2002) (“GALA II”). See also *DOJ Arkansas/Missouri Evaluation*, CC Docket No. 01-194, fn. 8 (FCC filed Sept. 24, 2001) (“Estimated market share will vary depending on the methodology used to estimate facilities-based lines. The Department relied on entries in the E-911 database.”); *DOJ New York Evaluation*, CC Docket 99-295, at 9 (FCC filed Nov. 1, 1999); *DOJ Kansas/Oklahoma Evaluation*, CC Docket No. 00-217, fns. 11 & 25 (FCC filed Dec. 4, 2000); *DOJ Massachusetts Evaluation*, CC Docket No. 00-176, at 4 (FCC filed Oct. 27, 2000); *DOJ Pennsylvania Evaluation*, CC Docket No. 01-138, at 4 (FCC filed July 26, 2001). In fact the DOJ, in this proceeding relied upon BellSouth’s methodology for estimating ALEC lines. See *DOJ Georgia/Louisiana Evaluation*, CC Docket No. 01-277 filed November 6, 2001 and *DOJ Georgia/Louisiana Evaluation*, CC Docket No. 02-35 filed March 21, 2002

<sup>8</sup> See Exhibit VW-10 of the Wakeling Affidavit for a further explanation of the methodology used in assessing ALEC line share.

9. Using Method One, BellSouth estimates that 115 competing carriers provide local service to some 1,242,655 lines, or 16.9% of the combined ALEC and BellSouth lines in BellSouth's area in Florida as shown in Table 1 below.

**TABLE 1 METHOD ONE: ALEC Lines in BellSouth's area of Florida**

ALEC PROVIDERS	Number Of ALECs	RESIDENCE Lines	BUSINESS Lines	TOTAL Lines
FACILITIES-BASED	58	85,882 Resale 321,946 Facilities-Based	7,248 Resale 773,680 Facilities-Based	93,130 Resale 1,095,626 Facilities-Based
RESALE - ONLY	57	52,951	948	53,899 Resale
<b>ALEC TOTAL</b>	115	460,779	781,876 <sup>9</sup>	1,242,655
<b>TOTAL LINES</b>		4,748,721	2,601,769	7,350,490
<b>% of Lines</b>		<b>9.7 %</b>	<b>30.0 %</b>	<b>16.9%<sup>10</sup></b>

Table 1 includes aggregate line totals for 58 carriers that are competing on a facilities-basis. Over 88% of the total lines are served by ALECs using their own facilities, either exclusively or in combination with BellSouth-provided UNEs and/or UNE-Ps. A significant number of these facilities-based lines – 321,946 – serve residential customers. Also, as of April 2002, 57 resale-only ALECs (each serving at least 40 lines) were providing a total of 53,899 access lines in BellSouth's Florida service area. Table

<sup>9</sup> BellSouth's ALEC line share total under Method One does not include lines for Network Plus. On April 8, 2002, Network Plus informed its Florida customers that as of May 10, 2002 all services would be discontinued. See <http://www.networkplus.com/southeast/>

<sup>10</sup> ALEC line share % based on ALECs' lines divided by total lines. Total lines equals ALECs' lines plus BellSouth access lines.

1 also shows that 52,951 of these resold access lines were residential lines and 948 were business lines. Exhibit ES-3 lists the 57 resale-only ALECs that each serves at least forty lines in BellSouth's area in Florida and their respective quantity of lines by residence or business class of service.

10. Table 2 presents results from Method Two, which relies upon E911 Listings and UNE-P data extant for 46 facilities-based ALECs (as compared to the 58 ALECs included in Table 1 where data on UNE loops or interconnection trunks are also considered). Using this data, BellSouth estimates that ALECs are serving 1,022,413 facilities-based lines in Florida.<sup>11</sup> These 46 facilities-based ALECs also serve 92,221 resold lines. When the lines from the resale-only ALECs are included, the overall total of ALEC lines becomes 1,168,533 which equates approximately 16.1% of the local access lines in BellSouth's service area.<sup>12</sup>

**TABLE 2 METHOD TWO - FLORIDA: using E911 and UNE-Ps for facilities-based lines**

ALEC PROVIDERS	Number of ALECs	RESIDENCE Lines	BUSINESS Lines	Total Lines
FACILITIES-BASED E911 Listings + UNE-P	46	85,473 Resale 329,659 Facilities-Based	692,754 Resale 6,748 Facilities-Based	92,221 Resale 1,022,413 Facilities-based

<sup>11</sup> Overall, Under Method Two, ALEC facilities-based lines in Florida have grown 94% since February 2001. ALEC facilities-based line growth in the residential market is even more dramatic. Since February 2001, the number of facilities-based lines serving the residential customer market has increased over 150%. See ES-Exhibit 4 and the Wakeling Affidavit at Exhibits VW-6 and VW-8.

<sup>12</sup> As the FCC stated in the GALA II order, "Congress declined to adopt a market share or other similar test for BOC entry into long distance." See GALA II at ¶. Nevertheless, it is worth noting that the total ALEC line share in Florida exceeds the total line share of 12 out of the 13 successful FCC 271 applicants.

RESALE – ONLY	57	52,951	948	53,899 Resale
ALEC TOTAL	103	468,083	700,450 <sup>13</sup>	1,168,533
TOTAL LINES		4,756,025	2,520,343	7,276,368
% of Lines		<b>9.8%</b>	<b>27.8%</b>	<b>16.1%</b>

11. Of the total lines provided by ALECs, an ever-increasing number are being served through UNEs<sup>14</sup>. Between February 2001 and April 2002 in Florida the quantity of UNE-Ps increased from 56,032 to 292,069 or over 400%. The quantity of UNE Loops increased from 106,619 to 160,220 or 50%. Currently over one-third of all ALEC-served lines in BellSouth's Florida service area are provisioned utilizing unbundled network elements (Loops/UNE-Ps) provided by BellSouth.
12. Among the many facilities-based ALECs in Florida are AT&T (includes Teleport and AT&T Broadband), Elantic (Florida Digital Network), KMC Telecom, Inc., Knology, MCI (includes WorldCom, MFS and Intermedia), and US LEC<sup>15</sup>. Each of these carriers has an approved interconnection agreement with BellSouth and each provides facilities-based service to either (or both) business and residential customers. As of April 2002

<sup>13</sup> BellSouth's ALEC line share total under Method Two does not include lines for Network Plus. On April 8, 2002, Network Plus informed its Florida customers that as of May 10, 2002 all services would be discontinued. See <http://www.networkplus.com/southeast/>

<sup>14</sup> Compare Exhibits VW-5 through VW-8 of the Wakeling Affidavit and Exhibits ES-3 and ES-4.

<sup>15</sup> As of April 3, 2002, US LEC served over 2,000 medium-to-large sized businesses in Florida. "US LEC's service area covers more major business markets in Florida than any other competitor, including BellSouth, Verizon and Sprint." As Aaron Cowell, president and COO of US LEC states, "With our new customer growth averaging more than 12 percent each quarter, US LEC truly dominates the competitive landscape in Florida." See *PR Newswire*, US LEC Dominates Competitive Landscape in Florida; Carrier Taking ILEC's Market Share, April 3, 2002.

these carriers alone served approximately 434,000 facilities-based business lines and over 140,000 facilities-based residential lines.

**B. ALECs Provide Service Broadly Over BellSouth's Area**

13. As stated in the Wakeling Affidavit, the quantity of ALEC collocations is a powerful indicator of the extent of facilities-based local competition in a given area. Where a ALEC is collocated, it has at least “the potential to serve many more customers through the leasing of UNEs.”<sup>16</sup>
14. As of April 2002 in Florida, BellSouth's records show a total of 1,421 completed collocation arrangements for over 50 ALECs. Currently 131 wire centers out of total of 201 in BellSouth's Florida service area have at least one completed collocation arrangement. See Exhibit ES-5. As shown in Table 3 below, a substantial portion of the completed ALEC collocations are in 50 of the larger BellSouth wire centers. These top wire centers alone serve over 60% of BellSouth's business access lines. Cumulatively, a total of 131 Florida wire centers have one or more collocations completed that offer the potential for different facilities-based ALECs to address 93% of the total access lines in BellSouth's service areas. See Exhibit ES-5.

**TABLE 3 FLORIDA: ALEC collocations, lines addressed in Wire Centers**

<b>BellSouth Wire Centers</b>	<b>Collocations Completed</b>	<b>% of BellSouth's Residential Lines</b>	<b>% of BellSouth's Business Lines</b>
13 or more completed- Top 50 Wire Centers 1 <sup>st</sup> to 50 <sup>th</sup> Wire Centers	<b>946</b>	46 %	60 %

<sup>16</sup> *Development of Competition in Local Telephone Markets*, Report to the Subcommittee on Antitrust, Business Rights and Competition, Committee on the Judiciary, U.S. Senate, January 2000, GAO/RCED-00-38 at 19.

5 to 12 completed - 51 <sup>st</sup> – 95 <sup>th</sup> Wire Centers	<b>1,340</b>	33%	24%
1 to 4 completed - 96 <sup>th</sup> – 131 <sup>st</sup> Wire Centers	<b>386</b>	13 %	11%
<b>Collocations Completed</b>	<b>1,421</b>	92%	95%

**C. ALEC Industry and the Future of Local Competition**

15. As shown above, competition has continued to grow in BellSouth’s Florida service area. The financial difficulties that some ALECs are now facing indicate that the ALEC industry is continuing to adjust to the recent economic downturn through consolidations and restructuring.<sup>17</sup> Some ALECs, such as Covad and McLeod have successfully emerged from Chapter 11 bankruptcy protection.<sup>18</sup> New Paradigm Resources Group, Inc. (“NPRG”) publisher of the CLEC Report 2002, reports “though struck by a severe downturn in recent months, the competitive local telecom industry is far from dead and many participants will ultimately survive to enjoy a successful future.”<sup>19</sup> According to NPRG, “the competitive local telecommunications business ... continues to overcome obstacles and defy premature death notices, racking up year-over-year revenue gains,

<sup>17</sup> See recent announcements issued by: Global Crossings, <http://www.globalcrossing.com/xml/news/2002/january/28.xml>, NetworkPlus, [http://www.corporate-ir.net/ireye/ir\\_site.zhtml?ticker=NPLS&script=410&layout=-6&item\\_id=255334](http://www.corporate-ir.net/ireye/ir_site.zhtml?ticker=NPLS&script=410&layout=-6&item_id=255334), McLeodUSA, <http://www.clec-planet.com/news/02feb2002/01mcleodusa.html>, and Adelphia [http://www.adelphia.com/invest/pdf/05\\_31\\_02.pdf](http://www.adelphia.com/invest/pdf/05_31_02.pdf)

<sup>19</sup> *CLECSs to Outlast Downturn, Study Says*, CLEC Planet, <http://www.clec-planet.com/news/index.html>, printed on December 12, 2001.

new access lines and wider market penetration.”<sup>20</sup> In fact, the CLEC industry as a whole is still very healthy.<sup>21</sup> “Though the names of the players may seem to change from month-to-month, and new service vehicles continue to encroach on traditional wireline service, the key constant in [the ALEC] business is continual upward growth.”<sup>22</sup>

### **III. CONCLUSION**

16. This supplemental affidavit provides the most recent information available on ALECs’ line share and collocation arrangements to demonstrate that BellSouth has met the Track A requirements of the Telecommunications Act of 1996 in its Florida service area. The recent levels of competition also demonstrate that ALECs’ line share continues to grow and that BellSouth is providing ALECs access to BellSouth’s network facilities and services in order to enable ALECs to deliver complete packages of voice and data services over the ALECs’ own network facilities; over their own network facilities in combination with elements of BellSouth’s network; and through the resale of BellSouth-provided service offerings. Competition is well established, broadly based and irreversible.
17. This concludes my affidavit.
