- FOR THE RECORD -  
FLORIDA WATER FIASCO!  
020554-WS

I live in the Hernando County area, and as I remember this situation was talked about in 1995-1996. Hernando was granted the right to set the cost of water in their area.

I object to the government control of our water supply also I don't want more wells to be drilled in our County. We have enough sink holes in our area already, furthermore we would buy bonds for the government and later Hernando would have to buy it back and we would pay again.

Sell it to Hernando County now
