**Re: CONFIDENTIAL DOCUMENT FILING
Docket Nos. 020262-EI and 020263-EI
Florida Power & Light Company's Consolidated Request For Confidential
Classification For Certain Documents And Information Filed in Connection
With Its Amended Petitions For Determination of Need**

Dear Ms. Bayó:

Enclosed for filing on behalf of Florida Power & Light Company ("FPL") are the original and fifteen (15) copies of Florida Power & Light Company's Consolidated Request For Confidential Classification For Certain Documents And Information Filed in Connection With Its Amended Petitions For Determination of Need ("Request"). The Request pertains to seven **CONFIDENTIAL** Appendices to the Need Study, Appendices C-1 through C-7. All these **CONFIDENTIAL** documents are being filed in connection with FPL's Amended Petition To Determine Need For an Electrical Power Plant in Martin County and FPL's Amended Petition To Determine Need For an Electrical Power Plant in Manatee County. Those petitions are being filed separately today.

The Request itself does not contain confidential information. However, Attachment A to the request, which is contained in a separate box, does contain **CONFIDENTIAL** information, which is highlighted. Attachment A is submitted in a separate box because of the volume of confidential documents. That box is labeled:

001889

CONFIDENTIAL MATERIALS

**Appendices C-1 Through C-7 to
FPL's Need Study For Electrical Power Plant
2005 - 2006**

So that your office will have redacted copies available for public disclosure, two redacted copies, which are referred to in the Request as Attachment B, are submitted as well in the two boxes labeled:

REDACTED CONFIDENTIAL MATERIALS

**Appendices C-1 Through C-7 to
FPL's Need Study For Electrical Power Plant
2005 - 2006**

Also being filed is a diskette containing the electronic version of the Request and Attachment C, which is a line-by-line justification of the confidential status of the Confidential Information. The enclosed diskette is HD density, the operating system is Windows 2000, and the word processing software in which the document appears is Word 2000.

Copies of the Request with the confidential documents redacted have been served upon the Division of Legal Services, Martha Carter Brown and counsel for parties of record. FPL is prepared to provide an unredacted copy of the Appendices to parties that have signed the Confidentiality Agreement once the Prehearing Officer approves intervenor access under the Confidentiality Agreement to Supplemental RFP bids. If you or your staff have any questions regarding this transmittal, please contact me at 222-2300.

Very truly yours,

Charles A. Guyton

**FLORIDA POWER & LIGHT COMPANY'S CONSOLIDATED
REQUEST FOR CONFIDENTIAL CLASSIFICATION FOR CERTAIN
DOCUMENTS AND INFORMATION FILED IN CONNECTION WITH ITS
AMENDED PETITIONS FOR DETERMINATION OF NEED**

Pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code ("F.A.C."), Florida Power & Light Company ("FPL") hereby requests confidential classification of certain confidential information provided to the Florida Public Service Commission ("Commission") in connection with FPL's Amended Petitions for Determination of Need for Martin Unit 8 and Manatee Unit 3 (the "Confidential Information").

In support thereof, FPL states:

Justification for Confidential Classification

The Confidential Information is contained in documents provided to the Commission in connection with FPL's Amended Petitions for Determination of Need for Martin Unit 8 and Manatee Unit 3. The Confidential Information is common to both need proceedings and is contained in confidential appendices to a common Need Study. Therefore, FPL has filed this Consolidated Request for Confidential Classification.

The Confidential Information for which FPL seeks confidential classification consists of seven confidential Appendices to the Need Study filed in support of FPL's Amended Petitions to Determine Need for Martin Unit 8 and Manatee Unit 3. Appendix C-1 is a summary of the 31 proposals analyzed by FPL as a result of its Supplemental Request for Proposals ("Supplemental RFP"), and it is the input sheet used in the economic evaluation. Appendices C-2 through C-6 are computer input and output reports containing the confidential bid information submitted in response to FPL's Supplemental RFP and confidential FPL unit operating data. Appendix C-7 is the equity penalty calculations for the RFP proposals.

The Confidential Information is intended to be and has been treated by FPL as private and confidential and has not been publicly disclosed. The Confidential Information will remain relevant market data for more than eighteen months. The disclosure of this Confidential Information within the next three years could harm the Supplemental RFP Respondents and FPL. Therefore, FPL seeks confidential classification for thirty-six months with the opportunity to request continuation of the confidential classification.

Much of the Confidential Information is the proprietary business information of parties that responded to the Supplemental RFP issued by FPL to solicit proposals to meet FPL's 2005 and 2006 capacity needs. Such information is intended to be and has been treated by the Supplemental RFP respondents and FPL as private and has not been publicly disclosed. The documents contain extensive proprietary confidential business information regarding the Supplemental RFP respondents and confidential information concerning bids or other contractual data that FPL has a duty to keep confidential. The disclosure of such information would significantly impair the competitive business interests of the Supplemental RFP respondents and impair their efforts to contract for goods and services on favorable terms. Additionally, such

disclosure could impair FPL's ability to obtain competitive proposals for future needs. Thus, disclosure of the Confidential Information would injure the Supplemental RFP respondents, FPL and FPL's customers.

The remainder of the Confidential Information is FPL unit performance data, including but not limited to projected forced outage rates, heat rates, and fixed and variable O&M, the disclosure of which would impair FPL's competitive interests and injure FPL's customers. FPL's customers would be injured by the disclosure of this information because disclosure would adversely affect FPL's ability to make off-system sales to benefit FPL's customers. All of the Confidential Information for which FPL seeks confidential classification is similar to information the Commission has already found to be confidential in Order No. PSC-02-0549-CFO-EI in both of the above-referenced dockets.

An unredacted copy of the confidential documents, with all Confidential Information highlighted, is enclosed as Attachment A in a box marked "CONFIDENTIAL." Attachment B is composed of two boxes of the same material with all Confidential Information redacted. Attachment C is a page-by-page justification of the confidential status of the Confidential Information similar to the justification the Commission found in compliance in Order No. PSC-02-0549-CFO-EI. Attachment D is the affidavit of Steven R. Sim explaining why the Confidential Information is proprietary and confidential and why it should not be publicly disclosed.

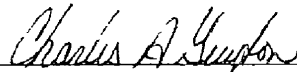

WHEREFORE, FPL respectfully requests the Commission to give the Confidential Information identified in Attachments A and B confidential classification and exempt it from

public disclosure for thirty-six months with the opportunity to request continuation of the confidential classification.

Respectfully submitted this 16th day of July 2002.

ATTACHMENT D

AFFIDAVIT OF STEVEN R. SIM

STATE OF FLORIDA)
)
COUNTY OF MIAMI-DADE)

BEFORE ME, the undersigned authority, this day personally appeared Steven R. Sim, who, first being duly sworn, deposes and states:

My name is Steven R. Sim. I am employed by Florida Power & Light Company (“FPL”) as a Supervisor in the Resource Assessment and Planning Department. In my role as Supervisor of a group that is responsible for determining FPL’s resource needs and developing an integrated resource plan, I administered FPL’s 2001 Request for Proposals for Capacity and Energy (“RFP”) and FPL’s 2002 Supplemental RFP.

I am familiar with Confidential Appendices C-1 through C-7 to the need study supporting FPL’s Amended Petitions for Determination of Need for Martin Unit 8 and Manatee Unit 3. I have reviewed FPL’s Consolidated Request for Confidential Classification for Certain Documents and Information Filed in Connection With its Amended Petitions for Determination of Need. The representations FPL makes therein regarding Confidential Information are true and correct. The information that FPL identifies therein as Confidential Information is proprietary and confidential, the disclosure of which would be harmful to FPL, the bidders in FPL’s Supplemental RFP and FPL’s customers. This information is treated by FPL as confidential. It will continue to be confidential for at least thirty-six months.

FPL seeks to protect two types of information as confidential. The first type is bid information provided to FPL by Supplemental RFP respondents. This includes, but is not limited

to, capacity costs, energy prices, fixed and variable O&M heat rates and unit availability. The Supplemental RFP respondents requested that FPL treat their RFP bid terms as confidential, and FPL has such an obligation. Disclosure of this information would impair the competitive interests of the Supplemental RFP respondents and jeopardize their ability to negotiate contract terms. Disclosure of this information would also impair FPL's prospective ability to solicit capacity proposals, to the detriment of FPL's customers. This type of information is in all the documents for which FPL seeks confidential classification pursuant to section 366.093(3)(d), Florida Statutes.

The second type of information FPL seeks to protect as proprietary and confidential is information regarding the cost and operation of FPL's generating units. This information is confidential to FPL just as this type of information is confidential to the Supplemental RFP respondents. FPL competes in the wholesale power market, and the disclosure of this information would injure FPL's competitive interests and FPL's ability to favorably negotiate contractual terms. The disclosure of this information would disadvantage FPL in making off-system sales to benefit FPL's customers. The second type of information regarding FPL's generating units is in all the documents for which FPL seeks confidential classification pursuant to section 366.093(3)(e), Florida Statutes.
