Dear Director,

I read in the St. Petersburg Times, Sunday July 7th, that Florida Water was spplying for a certificate to be regulated by the Florida Public Service Commission instead of but the county.

I did receive a notice by Florida Water informing me of a possible change. However, I am writing to you about this change. I am concerned because of the possibly of increases in rates to my water bills. If this is Florida Water's intention (getting a certificate to raise rates) then I am not in favor of the change.

Please be aware that this concerned citizen is not in favor of Florida Water being regulated by Florida Public Service Commission.

Thank you for your time.
