Re: **Docket No. 020822-TR**  
**Petition for Expedited Review of Growth Code**  
**Denial by the North American Number Administration**  
**for the Ft. Lauderdale Exchange (Jacaranda)**

Dear Ms. Bayó:

Enclosed is an original and fifteen copies of BellSouth Telecommunications, Inc.'s Petition for Expedited Review of NXX Code Denials, which we ask that you file in the captioned matter.

A copy of this letter is enclosed. Please mark it to indicate that the original was filed and return the copy to me. Copies have been served to the parties shown on the attached Certificate of Service.

Sincerely,

  
James Meza III  
(at)

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In re: Petition for Expedited Review of Growth ) Docket No.  
Code Denial by the North American Numbering )  
Administration for the Ft. Lauderdale Exchange )  
(Jacaranda) ) Filed: July 25, 2002  
\_\_\_\_\_ )

**PETITION FOR EXPEDITED REVIEW OF NXX CODE DENIALS**

BellSouth Telecommunications, Inc. ("BellSouth"), pursuant to 47 C.F.R. § 52.15(g)(iv), Federal Communications Commission ("FCC") Order FCC 00-104, and Florida Public Service Commission ("Commission") Order No. PSC-01-1873-PCO-TL, petitions the Commission to review the North American Plan Administrator's ("NANPA") denial of BellSouth's request for additional numbering resources in the Ft. Lauderdale exchange.<sup>1</sup> In support of this petition, BellSouth states:

**PARTIES**

1. BellSouth is a corporation organized and formed under the laws of the State of Georgia and an incumbent local exchange company ("ILEC") regulated by the Commission and authorized to provide local exchange telecommunications and intraLATA toll telecommunications in the State of Florida.

2. NANPA is an independent non-governmental entity, which is responsible for administering and managing the North American Numbering Plan ("NANP"). See 47 C.F.R. § 52.13(a),(b).

---

<sup>1</sup> Since this is a request for 3 dedicated NXXs and this is a pooling area, Neustar forwarded the request to NANPA for handling. NANPA is the entity that actually denied the request.

## **JURISDICTION**

3. The Commission has jurisdiction of this matter pursuant to 47 C.F.R. § 52.15(g)(iv). This provision provides that a carrier may challenge NANPA's decision to deny numbering resources to the appropriate state regulatory commission.

## **BACKGROUND AND REQUEST FOR RELIEF**

4. On March 31, 2000, the FCC issued Order No. 00-104 ("FCC 00-104" or the "Order") in the Numbering Resource Optimization docket (Docket No. 99-200). The goal of FCC 00-104 was to implement uniform standards governing requests for telephone numbering resources in order to increase efficiency in the use of telephone numbers and to avoid further exhaustion of telephone numbers under the NANP.

5. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier's need for numbering resources by requiring rate center based utilization rates to be reported to NANPA. FCC Order at § 105. The FCC further required that, to qualify for access to new numbering resources, applicants must establish that its existing numbering inventory within the rate center will be exhausted within six months of the application. Prior to this ruling, the industry and NANPA used the Central Office Code Assignment Guidelines to make code assignments. Under these guidelines, in order to obtain additional numbering resources, the applicant's existing number inventory within the applicant's serving switch had to exhaust within a specific months-to-exhaust ("MTE") of the code application or the carrier had to prove that it was unable to

meet a specific customer's request with its current inventory of numbers. The FCC stated that the shift to a "rate center" basis for determining the need for new numbering resources was intended to "more accurately reflect how numbering resources are assigned" and to allow "carriers to obtain numbering resources in response to specific customer demands." FCC Order at ¶ 105.

6. As a result of FCC 00-104, the FCC adopted 47 C.F.R. § 52.15 (g)(iii) and (iv) which provides:

All service providers shall maintain no more than a six-month inventory of telephone numbers in each rate center or service area in which it provides telecommunications service.

The NANPA shall withhold numbering resources from any U.S. carrier that fails to comply with the reporting and numbering resources application requirements established in this part. The NANPA shall not issue numbering resources to a carrier without an Operating Company Number (OCN). The NANPA must notify the carrier in writing of its decision to withhold numbering resources within ten (10) days of receiving a request for numbering resources. The carrier may challenge the NANPA's decision to the appropriate state regulatory commission. The state regulatory commission may affirm or overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein.

7. On December 29, 2000, the FCC also released FCC 00-429, which reaffirmed FCC 00-104 and also required carriers to meet a 60 percent initial utilization threshold. FCC 00-429 at ¶ 26. Based on these two FCC orders, carriers are now required to meet a six MTE criteria as well as a utilization threshold on a rate center/exchange basis in order to be granted additional

numbering resources. Id. at ¶ 29. On December 28, 2001, the FCC released FCC 01-362, which reaffirmed the MTE and utilization criteria as well as implementing a safety valve when carriers are unable to get additional numbering resources.

8. Since the beginning of this year, BellSouth has submitted several requests for additional numbering resources to NANPA and NeuStar, the pooling administrator, for assignment of additional numbering resources to meet the demands of its customers in several Florida exchanges, including Daytona Beach, DeLand, Ft. Lauderdale, Gainesville, Jacksonville, Miami, North Dade, Orlando, Stuart, and West Palm.

9. BellSouth has completed these applications in accordance with Industry Numbering Committee's (INC's) and/or NANPA's guidelines and filled out the necessary Months-to-Exhaust Certification Worksheets as required.

10. BellSouth has utilized mechanisms such as number pooling to manage its numbering resources in the most efficient manner. However, as the Commission is well aware, in some circumstances, BellSouth has been required to petition the Commission for relief.

11. On May 25, 2001, BellSouth petitioned the Commission to develop an expedited process to review NANPA's denial of a request for additional numbering resources to minimize the delay carrier's experience in attempting to challenge a denial by NANPA. As a result of the BellSouth's Petition and the Commission's efforts to make numbering resources available to carriers, the

Commission issued Order No. PSC-01-1873-PCO-TL setting forth an expedited code denial process.

12. As for this request for additional numbering resources for the Miami exchange, BellSouth states the following:

13. The Ft. Lauderdale exchange consists of ten (10) central offices and twelve (12) switching entities, Airport (FTLDFLAPRCO), Coral Ridge (FTLDFLCRH01 and FTLDFLCRDS0), Cyress (FTLDFLCYDS0), Jacaranda (FTLDFLJADS0), Ft. Lauderdale Main (FTLDFLMRDS0), Oakland (FTLDFLOADS0), Plantation (FTLDFLPLDS0), Sawgrass (FTLDFLSGDS0), Sunrise (FTLDFLSU74E and FTLDFLSUH12), and Weston (FTLDFLWNDS0).

14. On June 11, 2002, BellSouth requested additional numbering resources from NANPA for the Jacaranda (FTLDFLJADSO) switch. See Attachment 1. Specifically, BellSouth requested 3 NXXs to meet a specific customer demand for numbering resources. Due to dialing pattern concerns and the customer's intent to retain a 5 digit dialing plan, the NXXs cannot end in the same digit nor can the last digit be a 9.

15. At the time of the code request, the Ft. Lauderdale exchange had a MTE range of 6.66 – 6.69 and a utilization of 79%, while the MTE for the Jacaranda (FTLDFLJADS0) switch was – 4.50.

16. On June 11, 2002, NANPA denied BellSouth's request for additional numbering resources because BellSouth had not met the rate center based MTE criteria, notwithstanding the fact that BellSouth's is the specific switch is less than 6 MTE. See Attachment 2. Pursuant to Commission Order

No. PSC-01-1973-PCO-TL, attached to this Petition is the MTE and utilization rate for each switch in the Miami exchange. See Attachment 3.

17. BellSouth's request for additional numbering resources to provide the numbers requested above in the Ft. Lauderdale exchange would not materially impact exhaustion of available numbers in the 954/754 area codes.

18. As discussed above, both the FCC Rules and NANPA's Central Office Code Guidelines provide that state regulatory authorities have the power and authority to review NANPA's decision to deny a request for numbering resources. See 47 C.F.R. § 52.15(g)(3)(iv); § 13.0 of the NANPA Central Office Code (NXX) Guidelines.

19. Under earlier MTE procedures used by NANPA, waivers or exceptions were granted when customer hardships could be demonstrated or when the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NANPA looks at the number of MTE and utilization for the entire rate center without any exceptions. The current process is arbitrary and results in (1) decisions contrary to the public interest and welfare of consumers in the State of Florida; and (2) decisions that do not necessarily promote the efficient use of telephone numbers.

20. Unfortunately, BellSouth's inability to obtain numbering resources in the above switch, which is necessary to meet its customers' numbering demands in multi-switch rate centers, will not be the last time BellSouth experiences this problem. BellSouth has a total of 95 rate centers in Florida with

31 of these being multi-switch rate centers. Some of the switches within these multi-switch rate centers are already within or near the six MTE. BellSouth, however, believes that it will be unable to meet the six MTE threshold at the rate center level in all of these multi-switch rate centers, thereby jeopardizing its ability to adequately comply with its carrier of last resort obligations.

21. BellSouth requests that the Commission's reverse NANPA's decision to withhold numbering resources from BellSouth on the following grounds:

(a) NANPA's denial of numbering resources to BellSouth interferes with BellSouth's ability to serve its customers within the State of Florida.

(b) The MTE at the rate center level requirement is discriminatory against the incumbent LEC, since the ILEC is typically the only local service provider with multiple switches in a rate center. The ILEC deploys multiple switches in a rate center in order to meet customer demand for telephone service. The new FCC rules for obtaining numbering resources both penalizes and discriminates against the ILECs for deploying multiple switches. BellSouth believes that it is patently unfair to require that the ILEC only get six (6) MTE in all the switches it has deployed in a rate center, when the ALECs, which have recently entered the local service market, have to meet the MTE requirement in only the single switch that they have deployed to serve their customers in a single rate center or even multiple rate centers.

(c) As a result of NANPA's denial of BellSouth's request for additional numbering resources, BellSouth will be unable to provide telecommunications services to its customers as required under Florida law.

WHEREFORE, BellSouth requests:

1. The Commission review the decision of the NANPA to deny BellSouth's request for additional numbering resources for the Ft. Lauderdale (Jacaranda – FTLDLJADS0) exchange; and
2. The Commission direct NANPA to provide the requested codes for the Ft. Lauderdale exchange as discussed above.

Respectfully submitted this 25th day of July, 2002

A. Telephone Numbers (TNs) Available for Assignment (See Glossary<sup>3</sup>): \_\_\_\_\_

Month #1	Month #2	Month #3	Month #4	Month #5	Month #6	Month #7	Month #8	Month #9	Month #10	Month #11	Month #12
----------	----------	----------	----------	----------	----------	----------	----------	----------	-----------	-----------	-----------

B. Previous 8-month growth history<sup>4</sup>: \_\_\_\_\_

C. Forecast - Next months 1-12<sup>5</sup>: \_\_\_\_\_

D. Average Monthly Forecast (Sum of months 1-8 Part C above divided by 8): \_\_\_\_\_

E. Months to Exhaust<sup>6</sup> =  $\frac{\text{Telephone Numbers (TNs) Available for Assignment (A)}}{\text{Average Monthly Forecast (D)}}$  = 6.66

F. Utilization Level<sup>7</sup> =  $\frac{\text{Telephone Numbers (TNs) Assigned}}{\text{Total Numbering Resources in Applicant's Inventory}} \times 100$  = 70%

Explanation: \_\_\_\_\_ is requesting 30,000 numbers in FTLDLJADSO, Jacaranda, FJA. The three NXX's cannot have a 8 as the third digit (NXX). They have a 5 digit dialing plan.

1 A copy of this worksheet is required to be submitted to the Code Administrator. For audit purposes, it must be in the applicant's files.  
 2 Report on all resources for the requested geographic area, including newly acquired codes.  
 3 Definitions of terms may be found in the Glossary section of the Central Office Code (NXX) Assignment Guidelines.  
 4 Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #8 as the current month.  
 5 Forecast of TNs needed in each following month, starting with the most recent month as Month #1.  
 6 To be assigned an additional CO Code (NXX) for growth, "Months to Exhaust" must be less than or equal to 0 months. (FCC 00-104 § 52.15(a)(3)(ii)).  
 7 Newly acquired numbers (see glossary) may be excluded from the utilization calculation (FCC 00-104, § 52.15(a)(3)(iv)).

Thousand Block Application Form Part 1B

Attachment 2- Modified Nov 13, 2000

NPAC Block Holder Data

(Submit one form per thousand block request)

Activation Request:

Modification Request:

For Information Only

Section A:

(If request is for Activation, the thousand block applicant is to provide all data except Block Range, Block Effective Date and LERG Assignee/donating switch information; the PA will fill in those three fields. For a Modification Request, the requestor is to provide all information)

Pooling Administrator

Name	Gary Zahn
Address	1800 Sutter Street Suite 57
City, State, ZIP	Concord, CA 94520
Phone	925-363-8753
Fax	925-363-8761
E-Mail	gary.zahn@neustar.com

Block Applicant

Company Name	BellSouth
Contact Name	1 [Redacted]

(By submitting this form, your name provided above will be considered as an official signature.)

Address	2 [Redacted]
City, State, ZIP	3 [Redacted]

Phone 1 [redacted]  
 Fax 2 [redacted]  
 E-Mail 3 [redacted]@bellsouth.com  
 Service Provider NPAC SOA SPID[1] [redacted] 9417  
 Rate Center [redacted] Ft. Lauderdale  
 LRN [2] 4 [redacted]

For PA use only.

Block (1K) Range [3] [redacted]

Block Effective Date (MMDDYY) [4] [redacted]

Is Block being allocated back to the LERG Assignee on the donating switch? Yes  No   
 If Yes, do not send Part 1B to the NPAC. If No, forward Part 1B to the NPAC.

NPAC Activate Block Range [5] Yes  No

Section B:

(Block applicant to provide this data ONLY if NPAC Activate Block Range is marked 'YES')

Class DPC [6] 5 [redacted]  
 Class SSN [7] 6 [redacted]  
 LIDB DPC [8] 7 [redacted]  
 LIDB SSN [9] 8 [redacted]
