Re: Aloha Utilities, Inc.; PSC Docket No. 010503-WU
Our File No. 26038.35

Dear Ralph:

In accordance with our conversation this morning, I am attaching a revised version of the Customer Notice to be utilized to implement the increased service availability charge. We are ready to distribute the notice as soon as you tell me that this revised version is acceptable to the staff. I will then let you know the publication date as soon as I know it, and will forward onto you Proof of Publication thereafter.

Based upon our conversations recently concerning who is intended to receive this notice, it is my understanding that the staff is taking the position that the wording of the Order was intended to track that contained in Commission Rule 25-30.4345(3)(b) in that all persons who have filed a ... "written request for service or have been provided a written estimate for service within the 12 calendar months prior to...." the Commission's approval of this new service availability charge are to be noticed in addition to the publication notice.

Please let me know if there is any misunderstanding on my part. We intend to get the notice out within the next week and as such, I must know if there is a problem with our understanding immediately.

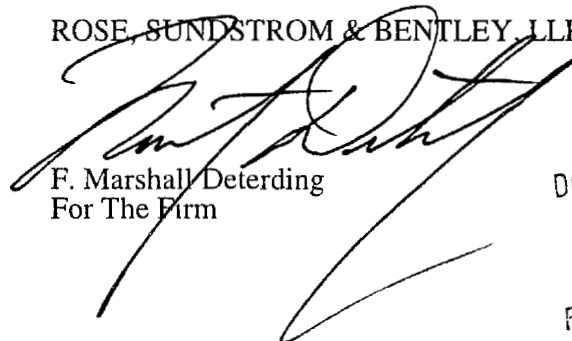

As with the increase in the charge to \$500, the increase implemented under this notice and the rate Order will be held in an escrow account subject to refund until such time as further action on this issue is taken by the Commission.

Please give me your final approval for this notice, so that we can begin the process immediately.
