RE: Docket No. 011605-EI, Document No. 07466-02

On July 18, 2002, Florida Power and Light Company (FPL) filed a request for confidential classification for its response to interrogatory numbers 14, 16, and 18 of Staff's Second Set of Interrogatories and document numbers 3, 8, 9, 10, and 12 of Staff's Second Request for Production of Documents.

I have reviewed the information submitted by the utility. My recommendation is that the Company be granted confidential status for all of the material cited in the request except for certain portions of the requested material provided in response to Staff's Second Request of Production of Documents, Question No. 3.

The section entitled "Appendix C - Glossary", including all related material on Bate Stamp 00100026HD through 00100029HD, are definitions that are widely used in the industry and can no way be considered proprietary or confidential.
