Florida Statute 364.02(2) defines basic local service as follows:

“Basic local telecommunications service” means voice-grade, flat-rate residential and flat-rate single line business local exchange services which provide dial tone, local usage necessary to place unlimited calls within a local exchange area, dual tone multi-frequency dialing, and access to the following: emergency services such as “911,” all locally available interexchange companies, directory assistance, operator services, relay services, and an alphabetical directory listing. For a local exchange company, such terms shall include any extended area service routes, and extended calling service in existence or ordered by the commission on or before July 1, 1995.

1. Are you currently providing residential or business service to customers in Florida that complies with the above definition of **basic local service**? If yes, continue with Question #1; if no, continue with Question #2. **Yes.**
 - a. To how many residential customers are you providing **basic local service** in Florida and what are your current rates? **None.**
 - b. To how many business customers are you providing **basic local service** in Florida and what are your current rates? **None.**
2. Are you currently providing types of local service (business or residential) in Florida that may not meet Florida’s statutory definition of **basic local service** ? (Examples could include: multi-line business users; services with toll or usage restrictions; mandatory 900 blocking; limited amount of local calling included in the monthly charge; bundled service offerings; etc.) If yes, continue with question #2; if no, skip to Question #3. **Yes.**
 - a. Please describe each of the forms of local service you are providing to residential customers in Florida, where you are offering these services (e.g., in which cities or areas), and indicate your current rates. **None.**
 - b. Please describe each of the forms of local service you are providing to business customers in Florida, where you are offering these services (e.g., in which cities or areas), and indicate your current standard rates. **We currently provide multi-**

line business service in around the cities of Jacksonville, Orlando, Tampa, Ft. Myers, West Palm Beach and Miami. Our tariffed rates are attached.

3. Do you actively market your local services to Florida residential customers? **No.**
- a. If not, please explain why. **US LEC is not currently offering residential service.**
- b. If so, in what geographic areas ?
- c. If so, what types of marketing do you use? Please check all that are applicable.
- Newspaper
 - Radio
 - TV
 - Direct Mail
 - Telemarketing
 - Email
 - Website
 - Other (please specify)
- d. If available, please provide marketing brochures or comparable materials.
4. Does your company offer xDSL? If so, please indicate, by exchange, the number of xDSL lines your company provides and explain how your company's various service offerings are priced. **Yes. No DSL lines currently provisioned. Our tariffed rates are attached.**
5. Are you offering or providing voice over DSL (VoDSL) service? If so, in what exchanges and respective wire centers and at what price(s)? Is your service local, long distance, or both? **No.**
6. Please describe the method(s) you are using to provide telephone services (e.g., resale, interconnection, unbundled network elements, facility-based, etc.). **US LEC purchases and deploys switching equipment and leases fiber optic transmission capacity and Special Access DS-1 loops from competitive access providers (CAPS), other CLECs and incumbent local exchange carriers (ILECS).**
- a. Please indicate, by exchange and respective wire center, the number of incumbent local exchange carrier (ILEC) access lines you are reselling to **residential** customers. **None.**

- b. Please indicate, by exchange and respective wire center, the number of ILEC access lines you are reselling to **business** customers. **None**.
 - c. Please indicate, by exchange and respective wire center, the types of unbundled network elements, if any, you are obtaining from the incumbent ILEC. **None**.
 - d. Please indicate, by exchange and respective wire center, the number of unbundled local loops, by type, if any, you are obtaining from the incumbent ILEC. **None**.
 - e. Please indicate, by exchange and respective wire center, the number of access lines you are serving through UNE loop combinations, such as the UNE Platform. **None**.
 - f. Please indicate the types of facilities deployed by your company in Florida to provide local telephone services, and indicate where these facilities are deployed. **US LEC deploys leased DS-1/ T1.5 access to all of our multiple line business customers. These leased T-1 facilities are delivered back to US LEC owned Lucent 5ESS switches via SONET protected optical carrier rings. We currently have switching networks in Ft. Myers, Miami, Ft. Lauderdale, West Palm Beach, Orlando and Jacksonville.**
 - g. If known, please indicate the number of access lines by exchange, separately for residential and business customers, provisioned solely over company-owned facilities. **None**.
 - h. Please indicate, by exchange, the number of business access lines you serve that are provided to Internet service providers. **[REDACTED]**
 - i. Please indicate, by exchange, the number of business access lines you serve that are provided to voicemail service providers. **None**.
7. Referring back to your responses to question number 6, please provide by subpart (e.g., 6(g)), where applicable, the number of voicegrade equivalent lines that you are providing (e.g., 1 DS1 should be considered equivalent to 24 voicegrade lines). **[REDACTED]**

8. a. Please indicate the number and location of switches you have located in Florida (if any) used to provide services to customers in Florida, identify whether they are circuit or packet switches, and identify the manufacturer.

- b. Please indicate the projected number and location of circuit and packet switches that you expect to locate in Florida within the next five years. [REDACTED]
- c. If applicable, please indicate if and where you have deployed transport facilities, and describe the technology(ies) deployed. **US LEC has deployed optical carrier transport facilities for local traffic transmission in each market where we have a switch.**
9. a. For each exchange where you are providing any form of residential local telephone service, please identify by exchange (a list of exchanges is attached) and respective wire center, the number of residential access lines served as of June 30, 2002. (See example below) **None.**
- b. For each exchange where you are providing any form of business local telephone service, please identify by exchange and respective wire center, the number of business access lines served as of June 30, 2002. [REDACTED]

10. For billing and accounting purposes, do you differentiate between residential and business customers? **US LEC does not currently provide residential local service.**
11. Have you experienced any significant barriers in entering Florida's local exchange markets? Please list and describe any obstacles or barriers encountered.
Attempts by certain ILECs to retain key customers via term commitment contracts represent a threat to competition and continued customer growth for CLECs. Refusal by certain ILECs for provide Basic Local Service for CLEC customers with Enhanced Service represents a threat to competition and continued customer growth for CLECS.
12. Have you experienced any difficulties involving any agreements you may have with incumbent LECs? If so, please describe any significant problems encountered.
13. Please describe your long-term (5 years) business strategy, including whether you intend to change your method of provisioning (e.g., from resale/mixed to all UNEs to facilities-based). **US LEC does not foresee any significant changes from our network deployment described in question 6(f).**
14. Have you been assigned your own NXX codes? If yes, how many codes have you been assigned? For each code that you have been assigned as of June 30, 2002, please indicate how many numbers have been assigned and how many of those numbers have active status. If you have been assigned NXX codes, please identify where they have been homed for rating and routing purposes.
[REDACTED]
15.
 - a. At any time during the last 12 months have you provided local telephone services in Florida and then withdrawn a service? If yes, please identify the service(s), prices, and exchange, and discuss the reasons for this decision. **No.**
 - b. During the last 12 months have you expanded your service offerings in Florida? If so, please list the new offerings, if they are residence or business (or both), their prices and the exchanges where you have offered the services. **Tariffed services and rates are attached.**
16.
 - a. Please list your primary line of business (for example, entertainment, cable television, private line/special access service, interexchange service, local service, cellular service, paging service, electric service, municipality, etc.) **Local Service.**

- b. If you are involved in providing cable television in Florida, do you offer any package plans combining cable television and local telephone services? If so, please indicate where such packages are being offered, and whether they are provided through your company itself, or an affiliate, or a business partner. **We do not offer cable television service.**
- c. If you or an affiliate provides long distance telephone service in Florida, do you offer any package plans combining long distance and local telephone services? If so, please describe any such plans, their terms and conditions, and when you began offering the plans. Is subscribing to both local telephone and long distance a condition of providing service? **Tariffed rates long distance telephone service are attached. Local and Long Distance service term and volume commitments may be combined to lower rates. Subscribing to both local and long distance service is not a condition of receiving service.**
17. Please provide any additional comments or information you believe will assist staff in evaluating and reporting on the development of local exchange competition in Florida. In particular, we are seeking comment on any major obstacles that you believe may be impeding the growth of local competition in the state and any suggestions you may have on how to remove such obstacles. We are also seeking comment on alternative methods to evaluate the level of competition in Florida (e.g., use of the E911 databases, etc.) as well as comments or information on intermodal local competition (e.g., wireless, cable telephony).
18. If your company filed a Form 477 with the Federal Communications Commission in March 2002, please enclose a copy of the completed Form 477 with your response to this data request. **Please see attached.**
19. Please provide a copy of the most up-to-date information that your company has provided to Wall Street analysts for the period July 1, 2001 through June 30, 2002 that discusses the number of access lines you provide as an ALEC in Florida. If the numbers differ from what you are reporting to the Florida Public Service Commission, please explain the differences. **US LEC does not provide this type of information to analysts.**
20. For the year ending December 31, 2001, please identify your total revenue from local service, broken out by business and residence. [REDACTED]
21. As of December 31, 2001, how much money (in thousands of dollars) have you invested in your network? [REDACTED]
22. Has your company filed either Chapter 7 or Chapter 11 bankruptcy in the past, are you

currently operating under Chapter 7 or Chapter 11 protection, or do you anticipate possibly filing for Chapter 7 or Chapter 11 bankruptcy?

No.

If so, please provide relevant dates and details about the filing, including which chapter.

SECTION 3 - BASIC SERVICE DESCRIPTION AND RATES3.7 Basic Line Service

Basic Line Service provides a Customer with a single, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Basic Lines are provided for connection of Customer-provided single station sets, Customer-provided key systems or facsimile machines to the public switched telecommunications network. Each Basic Line is provided with touch tone signaling and hunting.

Monthly recurring rates per Basic Line apply as follows:

Schedule 1:

	<u>1 Year</u>	<u>2 Year</u>	<u>3 Year</u>	
Basic Line	\$35.50	\$35.50	\$35.50	R

SECTION 3 - BASIC SERVICE DESCRIPTION AND RATES

3.8 Basic Trunk Service

Basic Trunk Service provides a Customer with a single, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Basic Trunks are provided for connection of Customer-provided private branch exchanges (PBX) to the public switched telecommunications network. Each Basic Trunk is provided with touch tone signaling and hunting.

Basic Trunks may be equipped with Analog Direct Inward Dial (DID) capability and DID number blocks for additional charges, as set forth in Sections 3.9 and 4.2.

Monthly recurring rates per Basic Trunk apply as follows:

SECTION 3 - BASIC SERVICE DESCRIPTION AND RATES3.10 Digital Trunk Service

Digital Trunk Service provides a Customer with a digital connection operating at 1.544 Mbps which is time division multiplexed into 24 individual voice-grade telephonic communications channels, each of which can be used to place or receive one call at a time. Digital Trunks are provided for connection of compatible Customer-provided private branch exchanges (PBX) to the public switched telecommunications network. Each Digital Trunk is provided with dual tone multi-frequency (DTMF) or multi-frequency (MF) signaling, as specified by the Customer. Digital Trunks may be configured into hunt groups with other Company-provided Digital Trunks. The terminal interface for each Digital Trunk Service is a DSX-1 panel.

SECTION 3 - BASIC SERVICE DESCRIPTION AND RATES3.11 Digital Data Service

Digital Data Service provides a dedicated point to point digital circuit, with bandwidth ranging from 56Kbs to 1.544 Mbs, that does not provide dial tone service. Digital Service T-1 required for circuits of 512K or less. Data Only T-1 required for circuits greater than 512K or an endpoint with multiple circuits whose total bandwidth sum to greater than 512K. The circuit is used to enable communications transport between two or more points. Digital Data Service is available to Customers in US LEC served LATA.

SECTION 3 - BASIC SERVICE DESCRIPTION AND RATES3.12 Frame Relay Service

Frame Relay Service (FRS) is a data communications service that provides for data connectivity between/among widely distributed locations. FRS routes Frame Relay Data Units between a customer's premises, within a LATA, using assigned Permanent Virtual Circuits (PVCs) provided via a dedicated Frame Relay Subscriber Network Access Line and a switch dedicated to FRS and other high-speed data services.

A Frame Relay Subscriber Network Access Line (NAL) is a dedicated digital line, utilizing the Frame Relay User to Network Interface standards. A Frame Relay Subscriber NAL provides connectivity from the customer's premises to the telephone company hub or serving wire center. The effective data rate of the line is 56/64 kbps for narrowband connectivity and 1.536 Mbps for wideband connectivity.

Each Frame Relay Data Unit is routed through the Frame Relay Network with an address that specifies the PVC connection. A PVC connection is a virtual connection between two Frame Relay Subscriber NALs, e.g. customer's premises.

Each Frame Relay Subscriber NAL is assigned at least one PVC. However, a customer may elect to subscribe to multiple PVCs. Additional PVCs are provisioned over the Frame Relay Subscriber NAL via address mapping, which enable the customer to route Frame Relay Data Units via virtual connections to multiple locations.

Frame Relay Service is available only where technically feasible and where US LEC has adequate facilities in place to provision it.

SECTION 3 - BASIC SERVICE DESCRIPTION AND RATES

3.13 Digital Subscriber Line (DSL)

N

Digital Subscriber Line Service (DSL) is a data communications service that provides for high-speed connectivity using Symmetric Digital Subscriber Line (SDSL) and ISDN Digital Subscriber Line (IDSL) technology. SDSL provides the customer the ability to transmit data to (upstream rate) and receive data from (downstream rate) a DSL Access Service Connection Point at the same speed using existing copper facilities. A DSL Access Service Connection Point is an interconnection point designated by the company that aggregates data traffic from and to Company SDSL-equipped serving wire centers. SDSL service may be used for simultaneous voice and data communications.

Six types of DSL service are available based on the synchronous speeds chosen by the customer. Peak speeds are not guaranteed by the Company due to factors that may effect the actual speeds delivered, including the SDSL Access Service customer's distance from the company's serving wire center, condition of the existing copper facilities, and the limitations in the telecommunications service provider's network design.

DSL Service will be provided over existing local exchange service facilities. When the customer orders DSL Service, the rates and charges are in addition to any rates and regulations that apply for the associated local service line provided under the terms and conditions of this tariff.

<u>Synchronous Speed</u>	<u>Monthly Recurring Charges</u>
1.5 Mbps SDSL	\$799.00
1.04 to 1.1 Mbps SDSL	\$599.00
768 to 784 Kbps SDSL	\$499.00
384 to 416 Kbps SDSL	\$199.00
192 to 200 Kbps SDSL	\$179.00
144 to 166 Kbps SDSL	\$149.00
	<u>Non-Recurring Charges</u>
DSL Circuit Installation	\$250.00

4.9.6 The Advantage Plan

The Advantage Plan offers long distance service to the Company's local customers who are seeking one-stop shopping for their telecommunications needs. Customers seeking to subscribe to the Plan must subscribe to the Company's local exchange service or to the Company's LD Only T1 Service at a minimum of one location.

In addition to low base rates, the Plan also offers special rates to all points in specific area codes regardless of the point of call origination. Additional codes will be added as they become available for Advantage subscribers.

Locations served by dedicated circuits will be billed on the basis of an initial billing increment of 6 seconds, with additional increments of 6 seconds. Locations where Advantage service is offered on a switched basis will be billed on the basis of a minimum billing increment of 18 seconds, with 18-second increments thereafter. All inbound traffic will be billed on the basis of an initial billing increment of 18 seconds, with 18-second increments thereafter. There is a minimum charge of one cent on each completed call.

Calls completed to, and incoming toll-free calls completed from, the following area codes are eligible for the Advantage Plan rates:

4.9.7 Flat Rate Toll Plan

The Flat Rate Toll Plan allows customers in all markets to place intrastate toll calls at the rate of \$0.10/minute. This plan has no monthly recurring charge, and the customer must meet only the \$500 monthly billing minimum for all combined services. The Flat Rate Toll Plan may also be used in conjunction with other calling plans. Customers must have US LEC selected as both their intraLATA and interLATA Primary Interexchange Carrier (2-PIC) in order for US LEC to be able to properly rate the calls.

4.9.8 Switched Long Distance

US LEC Switched Long Distance service offers smaller single and multi-line business customers the ability to select US LEC as their Presubscribed Interexchange Carrier for the completion of calls from specified locations. Switched Long Distance can be used in conjunction with other US LEC toll products or as a stand-alone offering. Switched Long Distance is available throughout the entire US LEC service area. However, Switched Long Distance will not be available from payphones, cellular phones or from presubscribed CLEC lines. Locations where Switched Long Distance service is offered will be billed on the basis of a minimum billing increment of 30 seconds, with 6 second increments thereafter.

N

The Flat Rate Toll Free plan is an inbound service which allows customers in all markets to receive interstate toll calls at the rates described below. This plan has no monthly recurring charge, and the customer must meet only the \$500 monthly billing minimum for all combined services. The Flat Rate Toll Free plan may also be used in conjunction with other calling plans. Customers must have US LEC selected as their Primary Interexchange Carrier (PIC) in order for US LEC to be able to properly rate the calls.

FCC Form 477 -- Local Competition and Broadband Reporting

Cover Page - Name & Contact Information

All filers must complete this section.

File data as of:

- 1. Filing status
- 2. Company
- 3. Indicate the category that best describes the operations covered by this filing.
- 4. Filers must report separate data for ILEC and non-ILEC operations. Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.
- 5. Use the following drop-down box to select your company, parent or controlling entity name. Select "not shown" if it is not in the list. See instructions Section IV-B-1 for information on preparing file names.

If you selected "not shown" above, then provide the following:

Name of company, parent or controlling entity.

- 6. State.
- 7. Contact person (person who prepared the data contained below).
- 8. Contact person telephone number and e-mail address.
phone
e-mail
- 9. Indicate whether this is an original or revised filing.
- 10. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.
- 11. If you requested non-disclosure in line 10, indicate if this is your complete or redacted file.

Please review instructions before completing form.

Reminders:

- 1) Ensure files are virus free by using up-to-date virus detection software. Filers are encouraged to submit files via e-mail (address: FCC477@fcc.gov).
- 2) If you are filing original or revised data for an earlier semi-annual reporting period, do not use this particular form (which is only for data as of December 31, 2001). See reminder 4.
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Files that cannot be opened in EXCEL97, files whose structure has been altered, and files with improper names will have to be refiled.
- 4) If you have questions about the form, contact the Common Carrier Bureau, Industry Analysis Division at (202) 418-0940; via e-mail at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must submit a Certification Statement signed by an officer of your company. A single statement may cover all files submitted. See Instructions sections IV & V
- 6) If you request non-disclosure of some data, you must file a public version of the form with such information redacted. See Instructions sections IV.B and IV.C for information on preparing a redacted file.
- 7) Name your files as specified in Instructions section IV.B.1. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in the instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.
