1	Interim rates subject to true-up.									
2	Market Rates will apply in those areas where BellSouth is not required to provide circuit switching pursuant to FCC rules.									
3	In Georgia, rates will apply for Currently Combined as well as not Currently Combined loop/port combinations unless otherwise identified.									
4	In the absence of ordered rates by a State Commission, the recurring rates for Currently Combined combinations of loop/port network elements will be the sum of the recurring rates for the UNEs which make up the combinations, and the nonrecurring rates shall be as set forth in this section.									
5	End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements.									
6	Geographically Deaveraged UNE Zones and applicable rates have been established for certain services, as shown in this Agreement. Where Geographically Deaveraged UNE Zones and applicable rates are established, Statewide rates are obsolete. Further, BellSouth is in the process of enhancing its billing systems in order to accommodate this Geographically Deaveraged UNE Zone Rate Structure. Until these enhancements are accomplished, estimated to be mid 2001, the UNE Zone 1 rate will be billed for all services residing in Zones 1, 2, 3 or 4, i.e., Rates for services residing in UNE Zones 2, 3 and UNE Zone 4, where applicable, will not be billed. Once billing enhancements are complete, all applicable UNE Zone rates reflected in this Agreement will be billed. Reference Internet Website http://www.interconnection/bellsouth.com/beamr_clec/docs/interconnection/deavuzrns.pdf to view Geographically Deaveraged UNE Zone rates.									
7	In the absence of ordered OSS rates by a state commission, BellSouth will offer regionwide rates.									
8	There is not a unique combination USOC. CLEC should submit the loop and port USOCs.									
9	Rates in TN and FL are interim and shall be true-up when final rates are ordered.

Notes :												
Interim rates subject to true-up.												
1 Geographically Deaveraged UNE Zones and applicable rates have been established for certain services, as shown in this Agreement. Where Geographically Deaveraged UNE Zones and applicable rates are established, Statewide rates are obsolete. Further, BellSouth is in the process of enhancing its billing systems in order to accommodate the Geographically Deaveraged UNE Zone Rate Structure. Until these enhancements are accomplished, estimated to be mid 2001, the UNE Zone 1 rate will be billed for all services residing in Zones 1, 2, 3 or 4, i.e., Rates for services residing in UNE Zones 2, 3 and UNE Zone 4, where applicable, will not be billed. Once billing enhancements are complete, all applicable UNE Zone rates reflected in this Agreement will be billed. Reference Internet Website http://www.interconnection.bellsouth.com/become_clec/docs/interconnection/deavuzrns.pdf to view Geographically Deaveraged UNE Zone Designations by Central Office.												
2 New EELs will only be available in the State of Georgia and in density Zone 1 of the following MSAs in the BellSouth Region: Florida - Miami, Orlando, Ft. Lauderdale Louisiana - New Orleans N. Carolina - Greensboro, Charlotte Tennessee - Nashville												
3 Unapproved rates are subject to true up.												
4 Add together the recurring rates of all the applicable network elements in order to obtain total monthly recurring rate.												
* Examples: - 2-wire VG Loop + Voice Grade Interface Card + DS1 Channelization System + DS1 Interoffice Channel - DS1 Loop + DS1 Interface Card + DS3 Channelization System + DS3 Interoffice Channel
