Re: Logix Communications Corporation Request to Cancel Certificate of Convenience and Necessity - Certificate No. 5702

To Whom It May Concern:

Logix Communications Corporation ("Logix") and/or American Telco, Inc. ("ATI") request that the Florida Public Service Commission cancel its Certificate of Convenience and Necessity Certificate No. 5702 issued on August 31, 1998, granting Logix and/or ATI authority to provide toll resale telecommunications services in Florida. Logix is currently providing long distance services to ninety-five (95) customers in the State of Florida. In order to ensure continued long distance services for these customers, Logix has entered into an agreement with Alternatel to provide long distance services to these customers, but is also informing them of their ability to choose another carrier. Pursuant to the Florida Public Service Commission Rules, all customers will be given thirty (30) days notice. A copy of the notice, mailed to each of our long distance customers in Florida, is enclosed.

Should you need additional information, please do not hesitate to contact me.

Sincerely,

Mary Kathryn Kunc,
Regulatory Attorney
