To who it may concern, I am writing in response to a notice I was sent (enclosed) regarding an application for sewer service. I am completely opposed to this sewer utility application approval!!! Many of us on the island have just paid a great deal of money to have new septic systems installed in our new homes, and I have no desire to be placed on sewer. No doubt there will be an additional expensive hook up fee from these same people who charge \$5000.00 to hook up to the water service on the island!!

Sewer service would also create a concentrated sewer smell at the processing plant which would lower our property values and create an unending odor problem that I am sure you will receive endless complaints about. My neighbors on Bocilla Drive are all opposed to this sewer application, and we hope you will take our opinions into consideration and deny this application!

Sincerely,

Blake D. Monroe
