Re: CINCO TELECOM CORP.'s Application for Original Certificate for Authority to Provide Interexchange Telecommunications Services

Dear Ms. McCoy:

020959-TI

Enclosed is CINCO TELECOM CORP.'S ("CINCO") application for authority to provide Interexchange telecommunications services in the State of Florida. (One original and six copies) Also included, is CINCO's proposed Tariff, attached as "Exhibit E" to the application. CINCO intends to offer prepaid calling card services for IntraLata and International long distance services.

Please note that we have attached financial reports for CINCO's parent, Orbitel S.A., ESP. ("Orbitel"), a Colombian telecommunications company with a 214 authorization issued by the Federal Communications Commission, for the period covering 1998-2001. CINCO is a newly created company, formed in December 2001, and therefore does not have the financial history to generate the records required for the application. Orbitel is well established company and one of the largest and most successful telecom operators in Colombia. We felt that submission of CINCO's parent's records was appropriate where CINCO intends to rely, to a significant extent, on Orbitel's financial and technical support to provide the services requested in the application. CINCO has already contracted with a network provider and will use this operator's platform to offer the prepaid calling card service for which it has requested authorization. This company will also provide technical support to CINCO for the service.

If you have any questions or require any additional information please do not hesitate to contact me. My e-mail address is set forth above and my telephone number is: (305) 446-4000 (Ext. 610). Thank you in advance for your cooperation and assistance in this matter.
