RE: Notice of Application for an Extension of Water and Wastewater Service Area  
Section 13, Township 23 S., Range 25 E

Dear Director:

We are in receipt of the above Notice of Application, which includes our legal description. Please accept this letter as our formal objection to the extension of water and wastewater service to Quiet Lane.

We live in a rural area of southeast Lake County (bordered by Orange County) that is zoned for 5-10 acre residential tracts only and includes agricultural property, nurseries, and horse farms. Our custom home was built with the applicable septic tank, well and water system required by Lake County.

It should be understood that this application is in line for the large amount of growth in South Lake County to include the subdivisions approved, but the estate homes on the 5-10 acre properties should be excluded. We not only live in this rural area, but also have a large piece of property surrounding Quiet Lane, which is owned and used by Water Conserve (Orange County and the City of Orlando) for spraying of reclaimed water and citrus groves. The above legal description does not include the typical residential subdivision and commercial environment.

Thank you for your assistance in this matter.

Sincerely,

Cc: Martin S. Friedman, Esquire
