Re: Docket No. 020892-WS, Application for transfer of Facilities and Certificate Nos. 431-W and 364-S in Highlands County from Buttonwood Bay Water & Sewer Company, LLC to Sun Communities Acquisition, LLC d/b/a Buttonwood Bay Utilities.

Dear Mr. Deterding:

After reviewing the application in the above referenced docket, staff has identified the following deficiencies and additional information needed to complete our review of the application.

1. Rule 25-30.030, F.A.C., requires the utility to provide a legal notice of the transfer application. The copy of the notice included in the transfer application does not state the name of the transferee/buyer of the utility. Please reissue the notice and include the name of the transferee/buyer of the utility. In addition correct the typo in the territory description to correctly identify Parcel No. 2 as the water plant site.

2. Rule 25-30.037(2)(q), F.A.C., requires the utility to provide evidence that it owns the land where the utility treatment facilities are located or a copy of the agreement which provides for the long term, continuous use of the land, such as a 99-year lease. Please provide a **recorded** copy of the Certificate of Title as evidence that the utility owns the land for the water and wastewater treatment facilities.

3. Pages 4 and 5 of The Summary Judgement (Exhibit B) reference three separate notes, the Venture note, Majestic Oaks note and the Buttonwood Bay note. Please clarify what these represent.

4. Please provide a copy of the engineering report and supporting documentation that was used to prepare the original cost study.

5. According to the original cost study for the wastewater system, the estimated costs are based on the Handy Whitman indices. Typically the Handy Whitman index is not used for trending wastewater system costs. Please explain why the Handy Whitman index was used for trending the wastewater costs.

6. In reviewing the original Order No. 13672, in Docket No. 840177-WS, dated 9/11/84, the territory description describes the water plant as Parcel 2 with .92 acres, and the wastewater plant as Parcel 1 comprising of 6.2 acres. The descriptions are listed below. The original cost study indicates the water plant is located on .08 acres and the wastewater plant is located on 12.53 acres based on a 1999 aerial photograph. Please provide the 1999 aerial photograph and explain the difference in acreage between the order and the original cost study.

PARCEL NO. 1 (WASTEWATER TREATMENT PLANT SITE, I-2 CU)

The East 750 feet of the North 2560 feet of Section 28, Township 35 South, Range 29 East, Highlands County, Florida, less the North 2200 feet thereof. Said Parcel No.1 containing 6.2 Acres, more or less.

PARCEL NO. 2 (WATER PLANT SITE, I-2 CU)
