Re: Approval of Amendment to the Interconnection, Unbundling, Resale, and Collocation Agreement Negotiated by BellSouth Telecommunications, Inc. ("BellSouth") and Access Integrated Networks, Inc. pursuant to Sections 251, 252 and 271 of the Telecommunications Act of 1996

Dear Mrs. Bayo:

Pursuant the Telecommunications Act of 1996, BellSouth and Access Integrated Networks, Inc. are submitting to the Florida Public Service Commission their negotiated agreement for the interconnection, unbundling of specific network elements, collocation of BellSouth networks, and resale of their telecommunications services to Access Integrated Networks, Inc.. The agreement was negotiated pursuant to sections 251,252 and 271 of the Act. The initial agreement between the companies was filed in FPSC Docket No. 000730-TP.

Pursuant to section 252(e) of the Act, the Commission is charged with approving or rejecting this amendment to the negotiated agreement between BellSouth and Access Integrated Networks, Inc. within 90 days of its submission. The Act provides that the Commission may only reject such an amendment if it finds that the amendment, or any portion of the amendment, discriminates against a telecommunications carrier not a party to the amendment or if the implementation of the amendment or any portion of the amendment is not consistent with the public interest, convenience and necessity. Both parties agree that neither of these reasons exists as to the amendment they have negotiated. Therefore, this amendment should be deemed effective by operation of law on February 13, 2003.

Very truly yours,

arshall M. CHiser II

Regulatory Vice President
